

# Refrigerators Vario 200 series

Warming your cooling experience

**GAGGENAU**

## Grand understatement

The Vario 200 does not seek to catch your eye or attract your attention. Its reserved, whispering eloquence, suggests refinement and impresses with understated gravitas.

Just as the modern kitchen seeks to integrate into the rest of your home, so the Vario 200 integrates into your kitchen. Joining, not interrupting, the design conversation. It is a balanced showcase for your ingredients and your design aesthetic.

The refined, sophisticated approach goes far beyond the performance and explores the experience. This is the defining difference of a luxury item that sets it (and the owner) apart from the herd.

## The Vario fridge-freezer

The minimalist interior layout provides a large interior space as well as an uncluttered view of its contents. Your ingredients are elegantly illuminated by warmer, softer lighting and underlined by the light bronze, soft toned aluminium profiles of the clear glass shelves and the substantial door bins.

The warmer light picks out the special touches such as the natural maple wood of the bottle holders and the light bronze humidity dial.

These new, desaturated brass toned, satin finished highlights are the elements that ensure opening the appliance is an aesthetically rewarding experience.

## The Vario refrigerator and Vario freezer, created to compliment one another.

A cooling wall combining the refrigerator and the freezer together creates one, integrated design piece. Open both doors to be greeted by the same, clear glass shelves, warm lighting, light bronze shelf profiles and even the gradient design of the drawers is shared.

The new layout of the freezer offers easy access, open shelving above and drawers below.

## Different by design

### Bottle holders

Two solid maple wood holders are able to carefully hold different sizes of bottle, including, wine bottles and magnums. They also connect together magnetically to form a cohesive tray system. The refrigerator's shelf can accommodate up to five holders (optional accessories) across its width or up to three holders along its depth.

### Shelving

Clear glass plate shelves offer profiles of light bronze anodised aluminium with a satin finish.

Bottle holders

### Lighting

The warmer hue of the lighting is inviting rather than glaring. It flatters food, emphasising the rich colours and tones of your ingredients.

The refrigerator light panel and the Fresh cooling 0 °C drawer spot light are warm toned, 3500K, bright LEDs.

The freezer's lights are positioned to the front between the racks.

### Dial

Zinc die cast in a matching light bronze tone. Adjusting the humidity levels allows you to keep ingredients fresher for longer.

## Refrigerators Vario 200 series

### Fridge-freezer

#### Type reference

RB 289 300\*

#### Size

Height 177.5 cm, Width 56 cm,  
Volume 223 l

#### Refrigerator

Cushioned closing system  
2 Fresh cooling close to 0 °C  
(1 adjustable humidity)  
Height adjustable shelving

#### Freezer

No-frost technology  
Fast freezing

#### Controls

Touch key, digital display  
temperature control  
Rotary dial for humidity  
adjustment

#### Accessories

2 maple wood bottle holders  
2 egg trays for 12 eggs  
Ice cube tray with lid  
2 ice packs

#### Connectivity

Home Connect

### Fridge-freezer
