

**GAGGENAU**

The range

**Create one aesthetic statement.**

Gaggenau appliances: individually accomplished,  
exceptional together.

A modern kitchen and dining area. In the foreground, a dark grey island with a black countertop is visible. Behind it, a dining table with four orange chairs is set. The kitchen features stainless steel appliances and a large window with blinds. The ceiling has a grid of dark beams and recessed lights. The floor is made of dark wood planks. A low, grey, tufted ottoman is in the foreground, and a small black table with a glass is next to it.

Welcome to the world  
of Gaggenau.

# 16 generations of heritage

1683, Ludwig Wilhelm von Baden, one of the most powerful aristocrats in Europe at the time, creates a hammer and nail forge in the Black Forest near the hamlet of Gaggenau.

Every hammer blow from that original foundry guides our metalwork today. Our heritage enables the continual creation of the exceptional, in every single appliance we craft and experience we provide.

# The difference is...

## **Built by hand**

After more than 300 years, we still handcraft much of what we produce. Every process, from shaping the initial sheet of steel to assembling our digital interface in our cleanroom, passes through a skilled craftsman's hands, with pride.

## **The professional kitchen principle**

We take our cue from the professional's kitchen, where everything exists to serve the chef. Innovations that aid the chef are embraced and function is everything.

## **Quality in all things**

Everything we do, is beyond the norm, from the materials we use, the craftspeople we employ to the quality control we are zealous about.

Discover the dedication to craftsmanship, heritage and performance on our website.

# Create one aesthetic statement

## **Individually accomplished, exceptional together**

The modern kitchen represents the harmonious interplay of cooking, living and entertaining. Gaggenau appliances inspire exceptional cuisine while also drawing the eye with their sculptural presence, celebrating both function and form. Choosing from a palette of authentic materials, each Gaggenau series of appliances offers key optical highlights that reveal a clear vision for any space, be it a wide open social setting or an enclosure dedicated to cuisine creation.

Designed to be together, Gaggenau appliances perfectly complement one another functionally and visually, connecting the room, home and vision.

Gaggenau Shanghai, China

# Experience Gaggenau

## A global invitation

Join us to see, touch, hear, smell and taste the Gaggenau difference. We encourage you to visit, turn a control knob, gaze into an oven, discuss with our knowledgeable staff and push to open a fridge while sipping our espresso.

Artistic, cultural and culinary events are regularly hosted by showrooms, as are 'Respected by Gaggenau' exhibits, where local and global artisans and craftspeople show the commitment required to create the exceptional. Consider this your open invitation, simply book online or call your local showroom for your individual appointment, to feel the difference.

Discover your local showroom on [gaggenau.com](http://gaggenau.com) or page 172.

Installation at Milan Design Week 2022, Italy

# More than just on show

## Gaggenau @ Milan Design Week

Gaggenau created an architectural installation to exhibit at Milan Design Week 2022.

In the grounds of the iconic villa Necchi Campiglio, 'A Statement of Form' entertained and informed guests, offering interactive and artistic displays involving Salvatore marble, Kaufman ceramic tiles, Gaggenau appliances and three Michelin star chef Christian Jürgens and his team.

Visitors were able to enjoy a full sensory experience from Gaggenau.

Bodegas y Vinedos Verum vineyard, Spain

# Respected by Gaggenau

## A tribute to the extraordinary

'Respected by Gaggenau' is our deeply-felt commitment to supporting like-minded artisans in the culinary, viniculture and design fields. Through the initiative, we have scoured the globe to unearth and showcase extraordinary farmers, producers and makers that strive for the best and who inspire and enable others. Such artisans share our ethos of making a difference by being masters in their field.

In the Culinary category, the family farm Salumi Bettella of Italy triumphed by cherishing their pigs and creating incredible Italian pork and cured meats. In the field of Viniculture, Spanish winemaker Elías López Montero is single handedly raising the reputation of La Mancha, with his traditional grapes and techniques. Apparatu, also in Spain, is the Design recipient, their utterly inventive ceramic designs straddle the world of craft, art and commerce.

Respected by Gaggenau is an ongoing, global initiative with local artisans often being celebrated in their native showrooms around the world.

# Ovens

The epitome of culinary excellence,  
the object of desire for the private  
chef: the Gaggenau oven.

---

400 series  
200 series  
EB 333

Ultimately, the ovens 400 series are  
the promise of culinary greatness.

# Ovens 400 series

## What the professional chef comes home to

The Gaggenau oven, combi-steam oven or combi-microwave oven is an aspiration for many, a promise to guests, a calling for the private chef and a statement to the designer. Inspired by the professional kitchen, it offers a considerable number of advantages, such as being hand crafted from the finest materials, ovens offering 300 °C capability and heated air catalysts to remove grease and odours. Every Gaggenau oven is made for the keen private chef while being designed for the private home.

The two design options are a stainless steel backed full glass or the darker Gaggenau Anthracite, both of which make a statement in any kitchen.

Oven, fully automatic espresso machine, combi-steam oven and culinary warming drawers 400 series

Combi-steam ovens and ovens 400 series

## The luxury of exceptional capability

### Cook with intense heat, without feeling it

Each of our 400 series ovens will more than satisfy the most demanding of chefs, with reassuring professional characteristics at every turn.

The distinctive solid stainless steel rotary knobs and TFT display provide intuitive control over the 17 cooking functions.

Touch the screen and the handleless door that sits proud of the surface, calmly opens, as much as 180° wide. Four layers of glass ensure a cool door regardless of internal temperature, even during the 485 °C pyrolytic cleaning programme. Each layer of glass perfectly renders colours, allowing you to accurately judge the browning of dishes, which can be achieved evenly using the rotisserie spit.

The multiple core temperature probe measures the temperature inside your dish to within one degree of accuracy, automatic programmes assist the private chef while the convenience of Home Connect allows you to control and monitor it remotely. In every sense of the word, this oven is proud.

76 cm combi-steam oven, oven and culinary warming drawer 400 series

Automatic cleaning system

## Fully master the power of steam

### Create your masterpiece

Having introduced steam into the private kitchen over twenty years ago, we have relentlessly refined it. The latest combi-steam ovens, available connected to a fixed water supply or using tanks, offer an enlarged cavity with which to master the culinary style.

Our private chef assistance with adjustable automatic programmes, five humidity levels, and up to 230 °C alongside a full surface grill behind glass encourages you to perfect your steaming. In short, it not only steams, but braises, bakes, browns, grills, gratinates, regenerates, sous-vide and even extracts juice. After which, it cleans itself using its sophisticated automatic cleaning system and its own water supply.

Water tanks

Vacuumping drawer 400 series

## Making steam a pleasure

### Cooking with nuance

As your masterpiece is being created, ensure it is beautifully illuminated. Discreet LEDs bathe your dish in soft white light, without glare thanks to a non-reflective back wall. Another thoughtful touch is the condensing of excess steam, simply to ensure the private chef is not engulfed in a billowing cloud when opening the door.

### Steam adores a vacuum

Add the vacuuming drawer under your oven or counter, in the same design as your oven or kitchen furniture, and sous-vide might almost become your convenience food. With different vacuum levels and sizes of bags, you will be able to lock in flavours, preserve ingredients and marinade in a third of the time. With the ability to vacuum outside of the drawer you can also enjoy opened wine even after the following night.

Glare-free illumination

60 cm combi-steam oven 400 series

Baking stone

Multiple core temperature probe

## The accoutrement of baking

Gastronorm roaster

### Within the oven

The core temperature probe is more than a thermometer for meat, fish, bread or dough. The readings from the inside of the dish will enable the oven to regulate its temperature and continually adjust its timer, giving you an up dated cooking time.

Accessories can unlock an entire culinary potential: the baking stone's intense heat is the secret ingredient for crisp tarte flambée, pizza bases and bread, there really is no alternative to cooking directly onto 300 °C.

Extendable rails, Gastronorm roasters and inserts as well as variable trays and pizza paddles will complete your oven's abilities, and yours.

Watch our films of the ovens 400 series on our website and YouTube channel.

## The coffee machine

### Your coffee, perfected

Water is kept consistently heated throughout the coffee brewing process, releasing the aroma while avoiding the bitter compounds. The insulated milk container is automatically weighed and will alert you if there is insufficient milk (or milk alternatives) or if you should check it for freshness.

A multitude of beverages can be made, including 12 types of coffee with up to 8 personalised options. Adjust the size, temperature, strength, milk to coffee ratio and number of cups to make a coffee, yours.

Oven, fully automatic espresso machine, combi-steam oven and culinary warming drawers 400 series

Culinary warming drawer 400 series in kitchen furniture facia 400 series

Fully automatic espresso machine and culinary warming drawer 400 series

## The culinary warming drawer

29 cm tall culinary warming drawer 400 series

### Your new favourite appliance

The culinary warming drawer is an exceptional slow cooker, comfortably accommodating all the Gaggenau oven accessories. Stable, low heat of up to 80 °C is distributed evenly for slow cookery, proofing dough, drying herbs and fruits, defrosting, melting chocolate and maturing yoghurt. Simply choose between preinstalled programmes for slow cooking, food warming and the heating of cups & plates or determine the temperature yourself. The Home Connect function further expands the drawer's repertoire, allowing the user to set a timer, add a favourite setting to the drawer's control panel and access additional programmes and exclusive recipes.

### Where would you like it?

Versatile in use and placement, your culinary warming drawer can be installed beneath or alongside other appliances, or separately, as well as in your choice of Gaggenau finishes. The drawer can even be placed under countertops, in your kitchen furniture fascia.

Timmy Coles-Liddle Home, a finca in Ibiza, Spain.

Flush or surface-mounted and choice of three colours ensures the oven 200 series fits into any kitchen concept.

Oven, fully automatic espresso machine,  
combi-steam oven and culinary warming drawers 200 series

# Ovens 200 series

## A matter of taste

A more subdued aesthetic defines the 200 series: it sits flush to the surface, its handles match those of your refrigerators 200 series, it does not dominate, yet it promises all the culinary prowess that the ambitious private chef could hope for. The ovens also utilise the distinctive solid stainless steel control knobs and TFT display. From here you control up to 13 heating methods, up to 300 °C and the baking stone ability, for baking as intense as a brick oven. Home Connect enables remote control and diagnosis and is available in most appliances.

Every oven 200 series, combi-steam and combi-microwave, culinary warming drawer and vacuuming drawer is available in three colours: Gaggenau Anthracite, Metallic and Silver.

Oven, fully automatic espresso machine,  
combi-steam oven and culinary warming drawers 200 series

Combi-steam oven 200 series

## Master steam

### Don't just add steam to your repertoire, master it

Our latest combi-steam ovens are almost as much of a revelation as our original, the first for the private kitchen. In the intervening two decades we have evolved the combi-steam to its current state of perfection, allowing you to steam, braise, bake, grill, gratinate and sous-vide.

The 200 series offers a choice of fixed water connection with automatic cleaning system or easy-access, large water tanks. An enlarged, beautifully-lit cavity with a full surface grill under glass, chef assistance and adjustable automatic programmes with five humidity levels enable you to master steam.

### The vacuuming drawer – for more than sous-vide

The perfect complement to your combi-steam oven, you can add the vacuum drawer beneath the worktop or the oven, in either your kitchen furniture or same design as the oven. With multiple vacuum levels, bag sizes and an attachment for use out of the drawer, the vacuuming drawer encourages you to lock in flavours, speed up marinating as well as preserve ingredients and opened wine.

Oven, fully automatic espresso machine and culinary warming drawer 200 series

Fully automatic espresso machine and  
culinary warming drawer 200 series

## The coffee machine

### Be your best Barista

Brew up to 12 types of coffee, and have the machine remember 8 personalised options, adjusting strength, temperature, amount of milk and coffee and number of cups. Make other hot water and milk drinks easily, the insulated milk container is even situated on a weighing scale, allowing the machine to warn you if the milk is running too low to make your choice of beverage.

At every stage of its preparation, your coffee's water is kept at a constant temperature, to release the aroma but not the bitter compounds.

Explore more on our website about our coffee machine 200 series.

Culinary warming drawer 200 series

## The culinary warming drawer 200 series

### The slow cooker in a drawer

This is a drawer that slow cooks, proofs, dries, defrosts, gently melts and matures using a consistent, stable heat up to 80 °C. Four programmes allow you to easily choose between slow cooking or the warming of food, cups or plates, or simply pick your own temperature. The drawer even holds any of the Gaggeneau baking or steam accessories, allowing a seamless transition between oven and drawer. The Home Connect app opens up even more possibilities, with a timer, recipes and the ability to programme the drawer with your preferred setting.

Place your warming drawer under, alongside, separated from other appliances or integrated under a countertop in your kitchen furniture fascia.

The EB 333, our 90 cm oven

# The oven EB 333

## Cook with an icon

This is a culinary icon, and has been for over 30 years. The entire front, all 90 cm of it, is the door, coming in at 20 kg thanks to five layers of glass keeping the outside cool while the inside is a raging 300 °C. Hand-crafted from a single sheet of 3 mm thick stainless steel, the door is cleverly cantilevered to gently close and easily open while the glass is carefully formulated to insulate without distorting colours, allowing you to see exactly how the three chickens on the rotisserie spit are progressing.

The EB 333 is the professional chef's final aspiration, the level of craftsmanship required to make it is such that daily production rarely exceeds single figures, something you will appreciate as you enjoy it decade after decade.

Watch the award winning EB 333 film and interviews on YouTube and our website.

# Cooktops and extractors

Gaggenau cooktops and extractors do not just look the part; designed with performance, discretion and aesthetics in mind, they are inspired by the professional kitchen.

---

400 series  
Vario 400 series  
200 series  
Vario 200 series

The cooktops and extractors 400 series adhere to the Gaggenau principle of exceptional materials, designed with insight and assembled with skill by craftspeople.

# Cooktops and extractors 400 series

## Cook, ventilate, entertain

As the kitchen becomes the new entertainment centre, cooktops must appeal visually and the extraction of steam and grease from the atmosphere becomes more vital. Cooktops and extractors are intrinsically linked in your kitchen.

Designed for the spacious kitchen, impressive in scale and performance, our 400 series cooktops offer as 90 cm of induction cooking or a full metre of gas with which to be creative. The modular Vario cooktop options can extend even further: induction, gas, Teppan Yaki, electric grill and downdraft ventilation, can connect together as one cooking area.

To remove distractions, and avoid becoming one, our extractors use quiet motors. Choose from the minimalist table and downdraft options, modular Vario ceiling or wall-mounted hood statement pieces. All designed to complement your cooktops 400 series.

Explore the 400 series at [gaggenau.com](https://www.gaggenau.com)

Full surface induction cooktop, table ventilation and Teppan Yaki 400 series

Full surface induction cooktop 400 series

Full surface induction cooktop 400 series

## The full surface induction cooktop

### For those of unlimited imagination

The full surface induction cooktops represent 80 cm and 90 cm of flush- or surface-mounted limitless creative space. Unconstrained by any white lines, the black glass is absolute in its devotion to minimalism. Beautiful alone, perfect when coupled with our modular Vario cooktops, they offer freedom for the kitchen designer and flexibility to the chef: up to five or six pans can be placed anywhere on their perfectly black surface. Move the pans around, the heat and timer settings follow. Add the Teppan Yaki accessory or utilise the Professional cooking function, which allows you to move the pans between different pre-set temperature zones without touching the controls.

The large TFT touch display invites you to intuitively scroll through the 17 power levels, timers or even compatible extractor settings using its Home Connect ability.

Explore the full surface induction cooktop at [gaggenau.com](https://www.gaggenau.com)

Illuminated black control knobs

## Control and installation

### Total, subtle, control

The illuminated 400 series controls, in your choice of finish: stainless steel or black, show which cooking zone is in use or cooling down. They can be installed on the top or the front of the worktop – to hand, without distracting the eye, just as in the professional kitchen. Alternatively, the full surface induction cooktop 400 series offers the private chef a large touch display to scroll through their many options.

### Consider placement

Many cooktops offer surface or flush mounting in any favoured configuration. Either a visible, 3 mm-thin stainless steel frame sits upon the worktop or the cooktop is embedded into the worktop, the choice is yours.

Solid stainless steel control knobs

## Flex induction cooktop with integrated ventilation

### The cooktop that cleanses

The 90 cm flex induction cooktop with integrated ventilation system 400 series combines a powerful ventilation between two flexible cooking areas, ensuring odour-free frying, wokking or simmering.

As with all flex inductions, you are empowered to expand your cooking zones to: accommodate larger and long pans, a Teppan Yaki and griddle plate. Your first choice however, is the colour of your illuminated control knobs: stainless steel or black?

**| Explore the flex induction cooktop with integrated ventilation at [gaggenau.com](https://www.gaggenau.com)**

Flex induction cooktop with integrated ventilation system 400 series

## Flex induction cooktop

### A depth of inspiration

New options of flex induction cooktops offer black printing, more surface area to cook upon and the choice of framed or frameless installation.

Increase your control over your cuisine using all the means at your disposal: twelve power levels, temporary booster function, keep warm function, frying sensor and automatic activation of a compatible extractor and its sensor-controlled run-on function.

at [gaggenau.com](https://www.gaggenau.com)

Flex induction cooktop 400 series

Table ventilation, Vario gas wok, gas cooktop and Teppan Yaki 400 series

## Clearing the air, at source

### The addition of unseen extraction

The table ventilation rises regally from the island behind the cooktop, capturing the vapour and odours while directly illuminating the worktop. Having accomplished its task, it sinks back down level with the surface.

The table ventilation draws steam and vapours down, at source, before they pervade the atmosphere. The quiet fan and space-saving ducting ensure discreet efficiency of the downdraft far in excess of its minimal size.

Vario ceiling ventilation 400 series

## The rise and removal of vapour

### Extraction, or circulation, from above

The Vario ceiling ventilation is a modern, modular and integrated solution. Its flush, minimal profile houses dimmable lighting, filters and ducting with the quiet brushless motors situated externally, out of sight and earshot.

Alternatively, make more of a statement with our wall-mounted hood: 120 cm of stainless steel. Three power levels, an intensive and automatic function as well as large angled baffle filters ensure removal of vapour.

All offer highly effective air extraction or circulation.

Explore the extractors 400 series at [gaggenau.com](https://www.gaggenau.com)

GAGGENHAU

Gas cooktop 400 series

## The full power of gas

### **Gentle warmth, immense heat, total control**

Handcrafted using the highest quality materials of stainless steel, brass and cast iron, this is the cooktop for the demonstrative chef who needs the space to wield multiple pans. It stretches out for a full metre, flush to the surface and can even be welded into a 3 mm stainless steel worktop. Beneath cast iron supports, a large central wok or paella burner is surrounded by two high power and two standard burners, all brass.

Full electronic power level regulation provides precise and reproducible flames, by turning the gas on and off it allows the gentlest of simmering and at full power enables wok and flash frying. When dealing with up to 18,000 watts of heat, direct control is important.

Explore the gas cooktop 400 series at [gaggenau.com](https://www.gaggenau.com)

The Vario cooktops and extractors 400 series combine to not only empower, but also inspire, the creative private chef.

# Vario cooktops and downdraft 400 series

## Create your creative space

The modular Vario cooktop range inspires the private chef to create their bespoke workstation, one that suits their way of cooking and advances their ambitions. The chef can build a modular, surface- or flush-mounted worktop, from induction, gas, Teppan Yaki and electric grill options, all of which can be interspersed with the downdraft to remove vapour at source. Professional, solid illuminated control knobs, in stainless steel or black, with or without a 3 mm thin stainless steel frame, ensure the array of appliances are an aesthetic success.

Protect your creative space from vapour. Provide adequate ventilation via cooktop level extractors, such as the downdraft or table ventilation, and overhead extractors such as the wall-mounted hoods or modular ceiling ventilation.

Explore the Vario 400 series at [gaggenau.com](https://www.gaggenau.com)

Vario configuration: gas cooktop, flex induction, Teppan Yaki and downdraft ventilations 400 series

Vario configuration: flex induction, downdraft ventilation,  
Teppan Yaki 400 series and socket

## Vario cooktops and downdraft 400 series

### Induction or gas? Both

All Vario cooktops can be installed flush-mounted. Everything from the 15 cm downdrafts, 38 cm single cooktops such as induction wok, Teppan Yaki, electric grill, through to a 90 cm five cooking zones induction offering a large triple ring for woks or larger pots as well as combinable heating areas.

The gas burners place up to 6,000 watts of raw power at your disposal. Fully precise electronic control over the flame enables the gentlest simmering and the fiercest of flames, which automatically re-ignite if they are blown out. The 38 cm single wok or paella burner is all consuming with several flame rings in one burner, alternatively you can extend to 90 cm and five brass burners.

Explore the Vario configuration at  
[gaggenau.com](https://www.gaggenau.com)

Vario configuration: induction wok, downdraft ventilation,  
flex.induction 400 series and black socket

## Tailor your culinary scenario

### Choose something special

The electric grill and Teppan Yaki are specialist appliances. Both have two cooking zones, enabling simultaneous heating and warming on a single surface. Alternatively, roast and grill together by replacing one half of the grill with a roasting pan.

Since its innovation in 1976, our downdraft ventilation has been performing quietly, invisibly, clearing the air for over four decades. Utilising the same stainless steel or black control knobs as the cooktops, the downdraft blends in as it draws steam and odour down into the worktop before they offend the chef.

Explore the Vario configuration at  
[gaggenau.com](https://www.gaggenau.com)

A photograph of a modern kitchen interior. In the foreground, a large, lush green plant with long, pointed leaves is positioned on a white ledge. Below the ledge is a long, white countertop that runs along a wall. Underneath the countertop is a long, white concrete bench. The kitchen cabinets are light-colored wood. In the background, a white island with a wooden stool is visible. The floor is a light-colored, textured material. The lighting is bright, creating shadows on the wall and floor.

The cooktops and extractors 200 series: create a cooking space that enables, inspires and complements your kitchen.

# Cooktops and extractors 200 series

## Professional demands, private space

With controls conveniently situated on the appliance the cooktops 200 series offers the private chef a concentrated area to create the extraordinary, with ventilation to match. Tailor your cooktop to your ideal culinary scenario by seamlessly joining together our modular options from the Vario cooktops 200 series.

Cooktops range from 28 cm to 90 cm, in flush- or surface-mounted, gas, flex induction or glass ceramic, interspersed with downdraft, a table ventilation, hoods, canopy or ceiling ventilation. All are designed to perform exceptionally, to professional standards.

Explore the 200 series at [gaggenau.com](https://www.gaggenau.com)

Flex induction cooktop with integrated ventilation system 200 series

## Table ventilation 200 series

### All you see is clarity

The open kitchen concept, whereby the kitchen and living space become one, demands exceptional ventilation, however a large extractor doesn't necessarily fit the design aesthetic of your entertainment space.

Embedded within the worktop, the table ventilation 200 series is situated along the top edge of your large induction cooktop, the Gaggenau Black appliances blending into one. Unseen until it emerges, the extractor's discretion continues; it is transparent glass. Clearing the air and revealing the view of the cooktop, it even enlightens with ambient illumination.

80 or 90 cm wide and flush-mounted, it harmonises with our large, frameless, induction and full surface induction cooktops. Using innovative Guided-Air technology it ventilates the entire cooktop. Home Connect enabled and controllable via the cooktop it detects and removes vapour, even after cooking, allowing you to concentrate on the cuisine.

Explore the table ventilation 200 series at [gaggenau.com](https://www.gaggenau.com)

Full surface induction cooktop 400 series and table ventilation 200 series

## Controls and installation

### Control of choice

The 200 series offers two control mechanisms. The Vario range's orange illuminated control knobs are integrated into the cooktop itself. The gentle illumination indicates when the appliance is on, heating up, at the correct temperature or cooling down.

Most of the flex induction cooktops utilise the Twist-Pad control: a stainless steel or black, magnetic controller that is removable, for cleaning or to create a more minimalist aesthetic for your kitchen. The bi-coloured display ensures clear communication of the cooking zones in use as well as the cooktop power levels. Home Connect enabled, the cooktops can also control compatible extractors.

All flex induction cooktops can be installed with or without frame.

Explore more at [gaggenau.com](https://www.gaggenau.com)

Black control panel and illuminated control knobs

## Flex induction cooktops with integrated ventilation

### The complete cooktop

The flex induction cooktop with integrated ventilation system provides automated flexibility. An impressive 80 cm wide, it offers four cooking zones that can be combined into two larger ones. The frying sensor enables accurate regulation of the temperature within the pan and gentle heating during frying. Everything is operated via the removable magnetic Twist-Pad control, in stainless steel for the framed option or in black for the frameless.

Added to this is its ventilation capability. Set to automatic, its extractor is capable of self-adjust according to the atmosphere, quietly removing vapour and odours at source.

Explore the flex induction cooktop with integrated ventilation at [gaggenau.com](https://www.gaggenau.com)

Flex induction cooktop with integrated ventilation system 200 series

Flex induction cooktop with table ventilation 200 series

## Flex induction cooktops

### A cooktop to suit every ambition

The induction offers a cooking surface that can transform into a clean, clear, flush surface: the black printing is subtle and most have a magnetic Twist-Pad that is simply removed from sight when not in use.

The flex induction cooktops are for the enthusiasts who want to express themselves beyond the restrictions of the normal sized cooking zone. For larger pans or accessories such as the griddle or Teppan Yaki plate, simply touch a button and merge two zones into one large one.

Pans can be moved within the enlarged cooking areas and the heating level will follow them. Alternatively, activating the Professional cooking function enables you to cook like a busy professional, moving the pan between the pre-set areas of high, medium and low heat.

There are five induction sizes available in the 200 series. Whatever your specific needs or preferences regarding the number of cooking zones, proportions and wok options, flex induction or ventilation included, with or without frame, flush- or surface-mounted, there exists an induction for you.

With frame

Without frame

Integrated ceiling ventilation 200 series

## Ceiling ventilation

### Extraction from above

The integrated Light Bronze rim extractor lies flush, within the ceiling, recirculating or extracting the kitchen air. All ceiling extractors are easy to control via remote control, from a suitable cooktop, via Home Connect or can be set to operate automatically.

The Gaggenau Black free hanging lift hood allows you to keep the extractor out of your line of sight, until needed. Then it can be lowered closer to the cooktop. More than a piece of theatre, this enables more focused air filtration and lighting, as well as easier access to filters.

Explore the ceiling extractors 200 series at [gaggenau.com](https://www.gaggenau.com)

Free-hanging ceiling ventilation 200 series with lift function

## Ventilation as a statement

### Centrepiece of the kitchen

The island hood is impressive. Contained within the stainless steel and Gaggenau Anthracite glass frame lies the recessed filters, dishwasher-safe grease filter, low noise fan and dimmable lights. Set it to automatic and simply concentrate on your cooking. A wall-mounted option is also available at the same 90 cm width.

### Art on the wall

An angled wall-mounted extractor in Gaggenau Anthracite glass matches your ovens, is out of the chef's way, yet very much a 90 cm wide design element.

Able to circulate or externally vent the air using dishwasher-safe filters, their design ensures they capture more vapour at lower power and noise levels. They can be manually or cooktop controlled or set to automatic: adjusting themselves depending on the fumes detected while lighting can fully illuminate or set the mood, artfully.

Explore the extractors 200 series at [gaggenau.com](https://www.gaggenau.com)

Angled wall-mounted hood 200 series

Flat kitchen hood 200 series

Canopy extractor 200 series

## Hidden extractors

### Discreetly effective

The flat kitchen hood is an intelligent, space-saving solution, sitting within the confines of a 60 cm or 90 cm width niche. Invisible and quiet, it provides dimmable lights, three power levels, automatic function and glass screen, extends beyond the cupboard when needed.

The canopy extractor is another powerful integrated option whenever space is at a premium. The quiet motor can be completely enclosed within the kitchen furniture while the easy-to-clean glass cover and dimmable illumination are all encased in stainless steel, hidden from view.

Explore the extractors 200 series at [gaggenau.com](https://www.gaggenau.com)

## Gas cooktops

### Aspirations achieved

There are three gas cooktops in the 200 series, presenting you with a choice of size and aesthetic. They vary from 60 cm for the four burner cooktop, to 90 cm for the five brass or black burner options. Stainless steel controls place the nine mechanically regulated power levels at your disposal.

These are cooktops designed to be both simple to use and be fully capable of creative, professional cooking.

Explore the gas cooktop 200 series at [gaggenau.com](https://www.gaggenau.com)

For the private chef with professional tastes. The 200 series.

# Vario cooktops and extractors 200 series

## Grand culinary ambitions, enabled

The range of Vario options enables a truly bespoke, personalised kitchen. As much about aesthetics as scale, the Vario 200 series distinguishes itself through its anodized aluminium, black control panels incorporated into the cooktops and uniform rectangular shape of the Vario appliances.

For the gas-centric chef, mechanically controlled power regulation precisely controls the nine levels of heat, ensuring replicable results.

## Aspiration, circulation and extraction

Since 1976, our downdraft ventilation has quietly outperformed its small size. Our current 15 cm wide model is able to extract or circulate, automatically if preferred. Larger extractors in the 200 series include wall-mounted and island hoods, ceiling ventilation, flat kitchen hoods tucked into kitchen units and the invisible canopy extractors. There is a 200 series option that complements your kitchen.

Vario flex induction and downdraft ventilation 200 series

Vario configuration: gas cooktop, flex induction, Teppan Yaki and downdraft ventilations 200 series

Vario configuration: Teppan Yaki, flex induction, electric grill and downdraft ventilations 200 series

## Design your cooking area

### Create directly on the heat

The kitchen powered exclusively by electricity and the chef with a penchant for cooking without pans will be drawn towards the stainless steel Teppan Yaki and the electric grill's two separately controlled zones. The Teppan Yaki gives the thrill of speed frying at 240 °C or it can provide a gentle warming plate, quickly becoming your cooktop of choice. In either case, the quietly powerful downdraft ventilation will clear away any excess vapours from the atmosphere.

### Clear the air from the worktop

The downdraft ventilation now offers a larger, wider, easier to clean, opening of 15 cm width to remove more air, a more effective double filtration surface and compact ducting to work quietly unnoticed in the kitchen unit. The automatic function with an air quality sensor enables the quietest, most efficient automatic removal of steam and odours without your intervention, allowing you to concentrate on the cuisine.

GAGGENAU

# Refrigerators

Extending the freshness of your ingredients and presenting all in its best light.

---

Vario 400 series  
Vario 200 series  
200 series

This is cooling that makes  
an architectural statement.

# Vario refrigerators 400 series

## Modular, seamless, impressive

A fully integrated, built-in modular family: the Vario cooling 400 series refrigerators, freezers, fridge-freezers and wine climate cabinets can be partnered in a multitude of ways. You have the flexibility to create an impressive, stainless steel clad, elegant cooling wall, with or without handles. Alternatively, the handleless options are able to disappear discreetly behind your kitchen furniture.

The Vario cooling 400 series is reduced to the essence of pure refrigeration and an impressive design interior. You gently push the enormous door and it effortlessly opens to a professional-grade stainless steel interior with modern, anthracite aluminium elements and almost imperceptible clear glass shelving. As you approach, the ice and water dispenser illuminates in anticipation.

The minimalist internal aesthetic is accentuated by warm white, glare-free spotlights that dramatically and flatteringly illuminate your all-important ingredients.

Vario freezer and refrigerator 400 series

Vario refrigerator and freezer 400 series

Fully extendible freezer drawer and warm white, glare-free LED lights

## Effortless access to fresh ingredients

### Push to open and...

The two opening assist options allow even the largest and heaviest of doors to be opened effortlessly, either by pulling or, for the handleless option, with a gentle push.

As you would expect, cooling is accurate to within a degree. Ideal storage conditions are met inside the cooling drawer, preserving your meat and fish for longer, thanks to temperatures close to, or even at, 0 °C.

Utilising the same TFT touch display as our ovens ensures you can effortlessly navigate the system, alternatively, you can control temperatures remotely via Home Connect.

To produce a reduced, pleasingly uniform, appearance: the easily adjustable, near invisible, rail system, allows those so inclined, to align the height of the shelves and solid aluminium door bins of their refrigerator and freezer.

Watch our Vario refrigerators 400 series film on our website.

Solid anthracite anodised aluminium door racks

Large or small, our minimalist, clean lines make our refrigerators 200 series a pivotal addition to any kitchen.

Vario fridge-freezer combination 200 series

# Vario refrigerators 200 series

## Warming your cooling experience

The modern kitchen is the heart of a connected, flowing home, a place where you create an atmosphere as well as cuisine. As such, its design becomes ever more welcoming and personal and less utilitarian and function-led.

The Vario fridge-freezers, refrigerators and freezers of the 200 series seek to continue your interior design ethos: performing perfectly, with sophisticated elegance. Blending into your furniture when closed, the refrigerator and freezer bathe the viewer in warmer, soft light when open, revealing touches of light bronze in the door bins and dial as well as the natural grain of maple bottle holders.

Vario fridge-freezer combination 200 series

Humidity dial

## Grand understatement

### Touches of luxury

The Vario refrigerators 200 series fit into a 178 cm niche and blend in with your home's interior design.

The pleasingly tactile, zinc die cast humidity drawer dial allows you to refrigerate fruit and vegetables or meat and fish at their optimal conditions, maintaining their freshness for longer.

The ample fresh cooling drawers never look cluttered thanks to the gradated frosted front. Both maple wood bottle holders connect together magnetically, gently securing various sizes of bottles including wine and magnums, with the grain of the wood adding a hint of the organic to the interior. Arrange up to five bottle holders across the refrigerator shelf or three deep.

And as you shut the door, it closes softly.

Bottle holders

Freezer lighting

## Design highlights

Door bin

### The interior completes your kitchen

A collection of luxurious elements have been brought together to create a sophisticated sensory moment for the chef and superior performance from your Vario 200 series. The experience begins when you open it. A gentle push is all it takes or, if that feels like too much, use your voice assistant and simply ask it to open.

The appliances are comprehensively yet softly illuminated. Bright and warm toned, the light panel, illuminated drawers and freezer lights emphasise the colours of your ingredients, so they are displayed as beautifully as they are preserved.

The substantial, light bronze toned, satin finished door bins match the clear glass shelf profiles and humidity dial.

The separate refrigerator and freezer complement one another perfectly: offering the same warm toned lighting, frosted drawers and open shelving.

Vario freezer and refrigerator 200 series

# Refrigerators 200 series

## More in a niche

This range offers a myriad of cooling solutions: you can lose yourself in up to 289 litres of cool volume or fit one of our refrigerators or freezers into a standard 60 cm slot. Large or small, our minimalist, clean lines make our cooling 200 series a pivotal addition to any room. Choose from a collection of capabilities such as distinct climate zones, fresh cooling drawers, 4-star freezer compartments and adjustable shelving.

## ...and free-standing

The free-standing fridge-freezer offers a striking 90.5 cm wide presence, enormous 573 litre volume and Home Connect. Open the impressive dark anthracite stainless steel french doors to access your filtered water dispenser, two fresh cooling 0 °C drawers with five preset settings for ideal storage and the stainless steel backwall. The freezer compartment is frost-free, fast freezing and offers an icemaker.

GAGGENAU

# Wine climate cabinets

Protect, present, prepare.

---

Vario 400 series  
200 series

A wine climate cabinet that preserves your wines under precise temperatures, showcases your collection and enhances the prestige of your kitchen.

# Vario wine climate cabinets 400 series

## Protect and serve

Your wine needs to be stored, protected, showcased and prepared for enjoyment. These are competing functions that your wine climate cabinet, equal to a wine cellar, achieves year after year with unflappable aplomb.

Behind its door frames of existing furniture material or stainless steel, with or without handles, lies a sanctuary free from disturbance. Up to three separate temperature zones can be set between 5 °C and 20 °C replicating a long-term cellar environment and the perfect drinking temperatures.

Meanwhile five pre-programmed light options, crafted oak bottle presenters and fully extendable trays exhibit your coveted collection with due reverence. Humidity is kept constant, sound is muffled, vibrations suppressed, aromas are filtered by activated charcoal while the treated glass doors cut UV rays. Yet all this security is powerless to stop you gently pushing the door and plundering.

**Watch our viniculture film and discover more on our website.**

Your wine collection:  
outstanding, within a niche.

# Wine climate cabinets 200 series

## Your collection in a niche

For your wine collection, there are two fully integrated options at 178 cm and 123 cm, protecting 80 and 48 bottles respectively. Both offer two climate zones, presentation lights, framed in your kitchen furniture material to blend seamlessly into your interior design.

## The under-counter cellar

Under your counter you can store up to 34 bottles, in two climate zones. Uncompromising in everything but size, this wine climate cabinet offers extendable bottle trays of beech and aluminium, LED lighting, humidity control, cushioned door closing so as not to disturb any sediment and lockable stainless steel door frames, to avoid temptation.

Discover more about our wine climate cabinets 200 series, on our website.

Wine climate cabinet 200 series

# Dishwashers

Clean with care and intelligence,  
before revealing it beautifully.

---

400 series  
200 series

Robustly effective and incredibly gentle, in the same wash.

Dishwasher 400 series

# Dishwashers 400 series

## Protects the precious

The handleless dishwasher 400 series features all the little, and not so little, touches you have come to expect from us. A long-stemmed glass holder and a silvercare cartridge accessory ensure the fragile are protected. Zeolite technology allows for gentle drying, while the special accessory of a third drawer can safely stow small bowls and cups.

This is a dishwasher with a deep regard for your prized possessions.

## Responsive to your whims

You are able to personalise the eight programmes and four options, shorten the cycle time and temporarily reduce the noise, for instance during a dinner party. All can be achieved easily and remotely from your portable device thanks to the Home Connect app.

The app can introduce you to the myriad of programme options and settings as well as suggest the ideal programme based on factors such as type of dish and level of soiling. Learning from your feedback it is also able to intelligently perfect a bespoke, wash cycle just for you.

## Experience enlightenment from within

### **An illuminating experience**

Push to open the dishwasher and you are greeted by the flattering soft glow of the uniquely illuminated interior. The dishwasher with flexible hinges informs that it is in use via a subtle warm white light in the top left corner. For those without flexible hinges, the programme's remaining time is projected upon the floor.

### **Gentle to the touch**

Smooth running rails offer minimal resistance, flowing in and out in a gentle, careful manner, protecting your glass, crystal and crockery with a cushioned closing mechanism. Silicon tipped folding racks protect delicate glasses and provide an additional non-slip surface for cups. The Intensive Plus option divides the lower basket into four areas and allows the Home Connect app user to adjust the amount of spray each area receives, targeting those dishes that require more vigorous attention. A dedicated area in the upper basket can even be set to receive direct water jets for better and gentler cleaning of glass.

| Explore the 400 series at [gaggenau.com](https://www.gaggenau.com)

The perfectly illuminated interior of the dishwasher 400 series

A dishwasher for every occasion, the 200 series.

# Dishwashers 200 series

## The luxury of choice

The dishwashing 200 series offers you a wealth of options. Aesthetically you can choose between handles or not. Would you prefer a subtle lateral info-light to inform you that the dishwasher is on or for the remaining time of the programme to be projected onto the floor? Appreciate an extra cleaning area that directs water specifically in one section for cleaner cups and spotless glasses? Prefer the gentler drying of Zeolite? 60 or a 45 cm niche? These are choices that will help you to arrive at the perfect Gaggenau dishwasher 200 series.

## The choices continue

Hone your dishwasher's performance. Personalise programmes and speed up the cycle while it is running or temporarily quietening the dishwasher, useful when entertaining guests. Use the Home Connect app to suggest and even download the most suitable programmes.

Dishwasher 200 series

Extra cleaning area for perfect results

A third drawer at the top, to stow cups and bowls safely

## Dishwashers 200 series

### The Gaggenau difference

What distinguishes every Gaggenau dishwasher 200 series, is the detail. The new flexible basket system secures glasses and crystal with silicon tipped holders that fold down to alternatively offer a non-slip extra shelf. Depending upon the model, smooth running rails or wheels provide controlled, effortless movement of the drawers and baskets.

A special accessory, a top, third drawer, gives the user another level to safely stow cups and bowls. And for gentler, more efficient drying, the door can be set to automatically open at the end of the cycle. All that can be done to protect the contents, is done, superbly.

These are details that are more than considered, they are polished to perfection.

# Washing machine and tumble dryer

## Treat your clothes, exceptionally

The Gaggenau washing machine and tumble dryer with heat pump are the first choice when it comes to a perfectly coordinated laundry system. They boast exceptional results with the ease of spacious, well-lit drums and large portholes so you can load and unload easily.

The washing machine offers a new intelligent dosing system, while the dryer houses a self-cleaning condenser heat exchanger, minimizing manual efforts. Both machines offer automatic programmes and communicate with each other: the dryer sets itself to the correct programme in anticipation of the wash load. Ensure your clothes look their best, effortlessly.

Intelligent dosing system iDos 2.0 for liquid detergent and softener for a perfect washing result  
10 kg drum with interior lighting  
Top-up function  
Dynamic Wash System

Tumble dryer with heat pump

WT 260 

Free-standing, slide-under or stackable  
Width 60 cm, height 84.2 cm  
Heat pump technology  
Self-cleaning condenser for automatic fluff removal  
Very quiet 62 dB  
Steam Refresh  
Smart Dry

 Home Connect

\* Energy efficiency class: at a range of energy efficiency classes from A+++ to D.

60 cm wide dishwashers are available as 86.5 cm and 81.5 cm tall units. The 45 cm wide dishwasher is 81.5 cm tall.

## Accessories

**Cutlery drawer**

With/without smooth running rails

**3rd basket**

With/without smooth running rails  
For 86.5 cm high dishwashers

**Silvercare cartridge**

For all dishwashers

**Glass holder**

For long-stemmed glasses

**Handle bar, stainless steel**

For all 60 cm dishwashers

## Accessories

**Stacking kit**

With pull-out shelf

# Energy Labels

By using energy-saving home appliances, you save valuable resources as well as money. That's why you should consider low energy and water consumption values when you purchase a home appliance.

Technological developments have resulted in many more products being able to attain an A+ or better rating. User behaviour has also changed, which is why new rescaled labels have been created that take this into account for washing machines, washer-dryers, dishwashers, cooling appliances and wine coolers. The Energy Label for ovens, cooktops and extractors will remain the same.

For more information on energy labels, visit: [www.gaggenau.com](http://www.gaggenau.com)

New rescaled energy label for washing machines, washer-dryers, dishwashers, cooling appliances and wine coolers.

Example Key for a fridge-freezer combination

- 1 QR code
- 2 Energy efficiency class
- 3 Energy consumption in kWh/year (measured under new standard conditions)
- 4 Noise emissions expressed in dB(A) re 1 PW and noise emission class
- 5 Total volume of all freezer compartments
- 6 Total volume of all refrigerator compartments

Energy label for oven, cooktops, extractors.

Key

- 1 Energy efficiency class
- 2 Energy consumption in kWh/year (measured under standard conditions)

# The extraordinary is connected

## Gaggenau and Home Connect.

Our lives and homes are becoming ever more connected. Our home appliances have always enabled our consumers to create extraordinary cuisine, now digital services are a valuable add-on to this principle as they integrate the kitchen into our modern lifestyles.

Our appliances are being equipped with Home Connect, a platform allowing you to intuitively communicate with your appliance digitally, remotely and at will. Home Connect also offers a wide range of other advantages such as remote diagnostics, voice control, and integration into selected home management systems.

Home Connect, enhancing your time in, and away from, the kitchen. Explore more possibilities on our website.

Download App from Apple  
App Store (iOS)

Download App from Google  
Play Store (Android)

The use of the Home Connect functionality depends on the Home Connect services, which are not available in every country. For further information please check: [home-connect.com](https://www.home-connect.com)

Home Connect is a service of Home Connect GmbH.
