

GAGGENAU MINIMALISTIC SERIES

GAGGENAU

SHAPING INFINITE OPENNESS

The Gaggenau Minimalistic series is perfection, revealed through restraint. Every element distilled to its purest form. Two lines, one circle: a statement.

This is luxury at its most assured, expressed not in ornamentation, but in precision. From the handleless design to the display integrated behind glass, every element is considered, allowing the entire appliance to recede quietly into the background, becoming one with the surrounding space. The two-line ventilation profiles, crafted from milled aluminium with a subtle metallic sheen, exist in harmony - each line distinct, yet unified.

User experience is at the core. A floating ring. Intuitive. Effortless. Precise. Meticulously crafted from stainless steel, it is a tactile statement - where interaction meets instinct.

THE ESSENCE OF MINIMALISM

Choose your colour: the silver hue of Gaggenau Sterling or the darkness of Gaggenau Onyx, both with metallic flecks adding a further dimension to the flush-fitted appliances.

Minimalism is demanding. It requires the absolute unification of design, engineering and craftsmanship. The perfectly judged lines at the top and bottom of the glass door function as ventilation, as well as an aesthetic triumph.

The ring: a universally understood shape, its function is intuitive, its suspended nature provides an element of joy to daily activity. Anticipating intent, it illuminates the interface upon your approach, then responds to your touch; visually, audibly and haptically.

The display is restrained, informative as well as enjoyable. Invisible until use, it is customisable and informs you of your dish's or coffee's progress with a rising sun graphic that slowly fills the circle.

OVEN

The Gaggenau Minimalistic series creates a groundbreaking commonality, form and function, not in opposition, but aligned.

Each element is refined to its most essential state: a high-performance full surface grill, out of sight behind the enamel, delivers a powerful, even heat from above.

Our extra-powerful bottom heating raises the baking stone to temperatures of up to 300 °C, creating the ideal conditions to achieve that perfect crust.

Performance that inspires confidence

The option of automatic programmes and the core temperature probe provide the chef with ease of use and absolute confidence in the cook of the dish. A dedicated air frying mode quickly delivers focused air circulation for evenly browned, crisp textures. And once served, the pyrolytic cleaning and heated catalyser effortlessly, and odourlessly, return the oven to its pristine, aesthetically-pleasing, state. Paired with a sophisticated lighting concept, warm white, diffused, unseen - yet illuminating every detail.

COMBI-STEAM OVEN

UNLEASH CULINARY CREATIVITY

Experience the power of steam, circulated heat and the discreet integrated full surface grill element that ensures perfectly consistent, evenly browned results every time. Combined with steam modes it creates dishes that are crispy on the outside and juicy on the inside, providing a versatile cooking solution for any culinary challenge.

The cleaning system makes maintaining spotlessness as simple as inserting a cartridge and setting the programme.

COMBI-MICROWAVE OVEN

PRECISE CONTROL, EXCEPTIONAL POWER

Blend microwave with hot air or with grill plus circulated air for quick, superb, browned results. Expand your cooking capabilities with special applications: "Dehydrating", for healthy snacks like dried bananas or drying herbs to preserve the taste. Use "low temperature cooking" for evenly cooked, juicy results in shorter time. These features open up new possibilities for creative and health-conscious cooking in your kitchen.

FULLY AUTOMATIC COFFEE MACHINE

PERFECT YOUR BEVERAGES

Choose your mode. Classic mode offers a convenient way to configure your daily beverage, while Barista mode is for professional-level customisation. Every aspect can be adjusted: water and coffee quantity, milk ratio, grinding level, brewing temperature and contact time.

Advanced cleaning and descaling features ensure the purity of your beverage and the impeccable operation of your appliance, whether it is connected to a fixed water supply or relies on a manually filled tank. These cleaning processes are automatically initiated as needed, discreetly following your beverage preparation.

CULINARY WARMING DRAWERS

COOK, WARM, CREATE

Experience exceptional temperature control with six distinct levels and four versatile heating modes, catering to a diverse range of culinary applications.

VACUUMING DRAWERS

PREPARE AND PRESERVE

Ideal for sous-vide preparation and the meticulous preservation of both food and, with our dedicated accessories, opened bottles.
