Inspired from the start. By removing constraints and freeing the imagination, we strive to enable. We are both the means and the inspiration for achieving professional creations.
The difference is Gaggenau

Every one of our pieces is conceived, designed and engineered, not just to the highest standards but to a Gaggenau standard.

Doors close with reassuring solidity, knobs turn with distinct increments, inserts fit snugly yet easily into place. Everything acts as it should and as you would wish it to.

Gaggenau is refined engineering and rugged design. We offer the eye a clean, minimalist line, and the chef immense control and capabilities. Open a door, turn a control knob, press a button, feel the difference.
Glass composites, waiting for their chance to become our distinctive blue enamel.

Baking

What the professional chef comes home to.

Each of our ovens will satisfy the most demanding of private chefs, with reassuring professional touches at every turn. As with honey still in the comb, there is the promise of a truly authentic culinary experience. Each chef wishes to express themselves a little differently: seasoning, timing, temperature, every recipe is personalised. What is required from us is excellent performance, lifelong quality and bold designs.

There are two ovens series to cater for these tastes, which differ in design and scale. Or we have the EB 388 for those harbouring a distinctly greater ambition.

Each series offers a multitude of striking and intuitive configurations. A combi-steam and classic oven, stacked double, offer immense volume and better flexibility. Add our vacuuming drawer to that combination and sous-vide cooking will become a natural part of your culinary repertoire. Alternatively, a single oven, arranged side-by-side with a fully automatic espresso machine and combi-steam oven or combi-microwave oven, will provide even greater amplitude.

You may also appreciate our warming drawer. Indulge in warming through your ten piece dinner set or simply keep foods warm as you coordinate your creations.

This range makes a statement: promising culinary connoisseurs professional results in a private setting.
The ovens 400 series

Driven by principles within the professional kitchen, inspired by the needs and experiences of the professional chef, we have introduced the same senses and standards into the private home with our ovens 400 series.

The bold lines of solid stainless steel and glass, standing proud of their background are unmissable and unmistakably Gaggenau. Intriguingly free of any handles, doors are opened by a simple touch of the display. This is an oven that confidently sets the tone of the kitchen. When stacked, the control panels bridge two options, the combi-steam oven or combi-microwave oven twinned with an oven. This choice can then be accompanied by either a warming drawer and with certain models a vacuuming drawer, designed with various intentions, including sous-vide preparation.

Freedom to bake, braise, grill and steam, for any master of the kitchen, can be a messy process and leaves its mark on an oven. With our unique water and pyrolytic self-cleaning system we ensure such masterpieces are subsequently cleaned up afterwards.

For the private chef with expansive ideas, the oven’s 60 cm width can be enlarged to a magnificent 76 cm. Either size is distinctive in striking stainless steel backed glass.
A range of three, in a side-by-side format, the combi-microwave oven and combi-steam oven separated by the craved-for integrated espresso machine is simply one impressive trio combination among many.

**Rotary knobs and TFT touch display** are both indicative of the Gaggenau way of doing things. Superbly crafted and reassuringly weighty, our rotary knobs provide the ideal amount of resistance for quick and precise adjustments of primary functions. The chef then uses the TFT touch display to access the secondary functions of any given programme.

**The fully automatic espresso machine** enables you to create your bespoke coffee, instantly. Up to eight personalised settings can be stored under each name and the machine’s continuous flow heater ensures each one of the very particular coffees is delivered on demand.
The combi-steam oven when there is the desire to steam, braise, bake, cook, grill, gratinate, regenerate, extract juice or sous-vide, this is the instrument you turn to. And having done all that it even washes itself.

We introduced the combi-steam oven to the private kitchen over 15 years ago. Since then we have been continually refining it.

Ultra-precise finessing of the temperature, five humidity levels and the new addition of a vacuuming drawer will encourage a mastery of cooking.

The automatic self-cleaning system of the combi-steam oven is an innovation that you will wonder how you ever lived without. It washes the interior of the combi-steam oven using its fixed inlet water supply and a cleaning cartridge. Simple, hygienic and effortless. Available in stainless steel-backed glass with a removable water tank or fixed inlet connected to the mains water supply.

The vacuuming drawer is designed for an assortment of preparations, enabling quick and convenient sealing of fish, meat, vegetables and fruit not just for sous-vide cooking but also for marinating and extended storage. It is less a question of when would you use it and more a question of when would you not?

The Gastronorm inserts allow for a seamless journey of food through the kitchen. Storage, refrigeration, preparation, cooking, baking and even serving can all be achieved within this versatile system. Available in stainless steel or non-stick coated, perforated or unperforated, with and without covers, the inserts are designed to fit into key Gaggenau products, which makes it a truly professional statement.
Sleek and handle less, this series is not only beautiful, but also intelligent.

The oven being top of its class. Flaunting up to 17 cooking programmes and an extensive range of features including a rotisserie spit, core temperature probe, the option of a baking stone and pyrolytic self-cleaning all at the touch of a button.

The core temperature probe ensures that you know the all-important temperature inside your meat, fish, pastries and pies. An intuitive concept that communicates through the TFT touch display, providing accuracy and control.

The baking stone is another example that epitomises the ovens 400 series’ inability to compromise. Hand finished, with its own removable heating element able to raise it to a mighty 300 °C, this bakes pizzas, tarte flambée and the humble loaf as perfectly as a professional brick oven.

The warming drawer helps coordinate creations. You will appreciate the ability to defrost as well as keep food warm and even slow cook. Alternatively you might simply require the ultimate indulgence of a coffee cup warmer.
The ovens 200 series

The 200 series offers professional results in a private setting. The 60 cm wide, flush fitting oven can be coupled with a fully automatic espresso machine, combi-steam oven and warming drawer. Positioned vertically or horizontally, this elegant series comes in three finishes, installs flush to your wall surface, fitting discreetly into any interior. And for those requiring a more traditional formation, the oven can be positioned under the work surface.

Perfect in any side-by-side arrangement, your choice of products is only restricted by one thing: the extent of your wall. Together the range provides limitless cooking methods from braising, steaming to your normal baking options, with the combi-microwave adding flexible convenience. The fully automatic espresso machine completes the lineal aesthetics, providing personalised coffee, delivered on demand.

This is a series that draws the attention of the design aficionado as well as the culinary connoisseur.
Sitting flush to the surface, the range offers immense capability and functionality and it does so in a seamless subdued style. It boasts ovens, combi-steam ovens, steam ovens, microwave ovens, combi-microwave ovens, fully automatic espresso machine and warming drawers, all attainable in the Gaggenau colours Anthracite, Metallic or Silver.

The ovens’ door handles match those of our fridges, connecting your pieces and unifying the room. Our crafted solid stainless steel rotary knobs are another distinctly Gaggenau element, providing primary control while the secondary functions are located on the TFT touch display.

The oven is the clever all rounder of the series, neatly fitting under the worktop or in a high cabinet. Equipped with an electronic temperature control, it performs a multitude of baking methods and defies stubborn stains through a pyrolytic system, which you then simply wipe free.

The baking stone transforms the oven, awarding you the capability to produce baked delicacies as if they emerged from a traditional brick wood oven.

The warming drawer heats plates for 6 to 12 guests to the perfect temperature, but is capable of so much more: defrosting, browning, raising pastry, warming and even slow cooking.
Regardless of personal preference you can gorge yourself on choice. Whether it is the Gastronorm system, which provides effortless engineering at every stage of your culinary adventure and ensures stress free food preparation, storage, cooking or regeneration. Or the single or combined combi-microwave oven, which unites conventional cooking, microwave and grilling. You can be assured capability meets potential equals inspired.

The combi-steam oven not only performs to meet every ideal of cuisine, it also uniquely uses its own integrated water supply. Whether you want to steam, bake, braise, regenerate or extract juice, this desirable 60 cm wide oven enhances your kitchen as well as your taste.

The fully automatic espresso machine provides personalised coffee in seconds. Stored under your name, eight choice settings and the continuous flow heater ensure demand is met immediately.
The oven EB 333

This is a piece of equipment that effortlessly screams your culinary credentials. An exceptional 90 cm wide and 78 litres of large-scale cooking capacity, this can intimidate. But with enough space for four roasts, a socket for the baking stone and a core temperature probe with automatic cut off, it is easy to see why this has become the professional chef’s first choice for family cooking, experimenting and homework. A classic icon, it is utterly distinctive, almost entirely handmade and its timeless design for the past 30 years will set standards for the next thirty.

Cooking

Give yourself the ingredients for greatness.

The two Vario cooktops series provide the aspiring chef with a variety of unique specialised appliances to make any home kitchen exceptional. As Himalayan salt proves, every culinary element should please both the palate as well as the eye. Made from solid stainless steel, each range presents a connected seamless and modular cooktop system. Crafted to all fit freely but perfectly together.

For those who simply cannot imagine cooking on anything but gas, we have the latest technology that simmers on the quietest of flame and performs loudly under a wok burner. Alongside gas are induction cooktops and the classic glass ceramic cooktops, special appliances such as the electric grill, steamer, Teppan Yaki and deep fryer. All accompanied by effortless and clever ventilation elements.

Whether flush- or surface-mounted, the expansive, professional Vario cooktops 400 series or the compact, understated Vario cooktops 200 series will transform the cooking space.
The Vario cooktops 400 series

The professional chef does not appreciate limitations. This series fits together perfectly and extends almost infinitely. Uniquely: grill, Teppan Yaki, steamer, downdraft ventilation and deep fryer can sit together as one cohesive workspace with induction or gas cooktops that can range from 38 cm to 90 cm.

Our energy efficient steel framed induction cooktops, direct heat quickly to the pan. With the power to sear as well as the control for long gentle simmering, it also comes in a wide variety of sizes as well as formats, from set cooking zones to full surface usage to wok attachments, all is possible.

This is a worktop that frees the imagination, a tribute to boundless cuisine. Illuminated controls can be found on the vertical surface; to hand, without distracting the eye. Yet another distinction that makes the Vario cooktops 400 series, imposing but not overwhelming.
Everything out-performs its intended use, with finesse. It pleases the eye as much as the hand.

The rotary knob is an instrument of precision mounted on the front of the counter. Superbly crafted and reassuringly weighty in solid stainless steel, it subtly illuminates in use. This is intuitive control at its finest.

Surface or flush mounting result in any favoured configuration having a 3 mm visible perfect edge or sitting level, embedded in a countertop. It is simply a matter of taste.

The deep fryer and the steamer offer dedicated cooking within a stainless steel oval. The fryer is ideal for everything from tempura to the ubiquitous chip, while the steamer can turn its hand to blanching, juice extracting, cooking, regenerating and stock or wine reduction. Inserts even allow for the segregation of different foods in the same steamer, so vitamin-rich virtuous vegetables remain uncontaminated by the velvety white wine sauce, for now.

The induction cooktops extend from a 38 cm single wok option through to 90 cm, offering five cooking zones and adjustable heating areas. For those with things to do and water to boil, the temporary booster function turns large volumes of liquid from tepid to tempestuous in seconds.
The gas burners put up to 6,000 watts of raw power at your disposal. Fully precise electronic flames automatically re-ignite if ever they are blown out. The single wok or paella burner is all consuming with several flame rings or you can push the boundaries, all the way up to a five brass burner.

The downdraft ventilation seemingly defies physics. It draws the heat, steam and vapours down, at source, before they pervade the atmosphere. Up to two minimalist downdraft ventilations can be controlled with an exquisite control knob. The fans are quiet, being sited within the kitchen unit at floor level, while the space saving ducting does not impinge upon the use of the cupboards below. You will not even know it is there, until you need it.

The table ventilation rises regally from the island behind the cooktop, this is a show-stopping ventilator. It captures the vapour and odours from the very top of the pans, while directly illuminating the worktop. Upon completion of its mission, it sinks effortlessly once more into the table.

The Teppan Yaki and grill offer two very different types of direct heat. Both have two cooking zones, enabling simultaneous heating and warming on a single surface. Alternatively, roast and grill together by replacing one half of the grill with a roasting pan.
The cooktops 400 series

We go to extraordinary lengths to ensure our individual cooktops deliver perfection. This full surface induction cooktop is 80 cm of unlimited creative space, enabling impulsive pan placement. The entire area is your cooking zone, wherever you position the pan, that is where it will cook. Move the pan to make room for others and it remembers the setting and reapplies it to the pan wherever you set it back down.

This is an enormous blank canvas upon which you are given free reign to create your masterpieces. The TFT touch display control panel will be familiar to anyone with a smart phone as it offers scrolling power level regulation alongside the usual timing information and available cooking functions.
The VG 491 stretches out for 90 cm, flush to the surface and can even be welded into a stainless steel worktop. A large central wok or paella burner is surrounded by both high power and standard burners, each capable of automatic re-ignition should you be affected by unexpected crosswinds. Arming the chef with five brass burners under cast iron supports, ready to provide up to 18,000 watts of heat, this is as powerful as it looks.
The Vario cooktops 200 series

Where counter space is at a premium, we offer a more compact interconnecting system with controls incorporated into the cooking panel. Ranging in scale from 28 cm to 70 cm, this is a very cohesive series, fusing state-of-the-art performance with intelligent design. So while the area may be limited, culinary ambitions need not be.

Sitting comfortably alongside the gas, induction and glass ceramic cooktops are the more specialised options such as the grill, deep fryer, Teppan Yaki and steamer. Matching downdraft ventilation completes the harmonious picture framed in brushed stainless steel control panels.
The range of options extend far beyond the capacity of most kitchens, allowing the chef to mix and match creating a very personalised display. The gas two-ring cooktop and the wok burner flanked by three brass flame rings cater for a variety of tastes, providing ample room for all guises of cookware. The steamer, induction cooktop and Teppan Yaki will inspire the healthy food adventurer within and the downdraft ventilation will ensure the kitchen remains pure as well.

**The steamer** offers assorted methods of preparation from fresh steam-cooking, blanching, juice extraction, cooking regenerating as well as creating stocks and reducing wine. It can even separate two ingredients with the use of inserts, where their gentle progress can be monitored through the glass lid.

**The downdraft ventilation** removes steam and odours at source, recirculating or extracting the air. A quiet, minimalist, subtle answer to the perennial problem of smaller space kitchens.

**The induction cooktops** boost function produces a burst of 50% more power for searing or boiling large pots of liquid, this is the induction for the impatient.

**The Teppan Yaki** gives the thrill of speed frying at 240 °C using the full 1,800 watts of power or it can be re-purposed to provide a gentle warming plate. This will quickly become the cooktop for entertaining.
The cooktops 200 series

Each with a different character, this part of the range presents widths from 60 cm to 100 cm. Whether it is flush- or surface-mounted, gas, induction or glass ceramic; where space is limited, ambition is not.

The flex induction cooktop is for the enthusiasts who want to express themselves beyond the restrictions of a small cooking surface. It offers a number of normal sized induction zones to choose from, as you would expect. But for larger pans or its bespoke accessories, the griddle plate and Teppan Yaki, you can touch a button and merge two zones into one large one.

The professional cooking function enables you to cook like a chef, with pre-set areas of high, medium and low heat. Pans can be moved within the flex induction cooking areas and the cooktop will remember the heating level and reapply it wherever the pan settles within the heating area. And when you have finished creating, the visual elements virtually disappear into your surface.

The control concept is a twist-pad that simply lifts off for hygienic cleaning of the surface. An ingenious interface whose simplicity belies its power. This is a flexible cooktop designed to be both easy to use and capable of adventurous, professional cookery.
## Vario induction cooktop 400 series

**VI 424**
- Two cooking zones with booster function
- Total output 3,600 W
- Solid stainless steel control knob
- Precision crafting of 3 mm stainless steel
- For surface installation with a visible edge or for flush installation
- Can be combined perfectly with other Vario appliances of the 400 series

**VI 424 110**
Stainless steel frame
Width 38 cm
38 500.00

## Vario induction wok 400 series

**VI 414**
- 28 cm cooking zone with booster function
- Ideal for the original wok pan with round bottom, with wok ring
- Solid stainless steel control knob – Precision crafting of 3 mm stainless steel
- For surface installation with a visible edge or for flush installation
- Can be combined perfectly with other Vario appliances of the 400 series

**VI 414 110**
Stainless steel frame
Width 38 cm
38 500.00

### Optional accessories

**WP 400 001**
Wok pan made of multiple-layer material
With round bottom and handle,
ø 36 cm, 6 litres, height 10 cm.
2 100.00

**WZ 400 001**
Wok attachment for wok pan
(only for Vario induction wok)
1 200.00

## Vario flex induction cooktop 400 series

**VI 422**
- Flex function for combining the rectangular cooking areas
- Free positioning of cookware inside combined cooking areas
- Frying sensor function for temperature control in pans
- Easy control of all functions with bicoloured display
- Solid stainless steel control knob
- Precision crafting of 3 mm stainless steel
- For surface mounting with a visible edge or for flush mounting
- Can be combined perfectly with other Vario appliances of the 400 series

**VI 422 111** (Available 3rd quarter 2017)
Stainless steel frame
Width 38 cm
44 000.00

### Optional accessories

**GP 900 004**
Stainless steel frying sensor pan
2 100.00

**WP 400 001**
Wok pan made of multiple-layer material
2 100.00

**WZ 400 001**
Wok attachment for wok pan
1 200.00

## Installation accessories

**VA 420 000**
Connection strip for combination with other Vario appliances of the 400 series for flush mounting
1 200.00

**VA 420 001**
Connection strip for combination with other Vario appliances of the 400 series for flush mounting with appliance cover/filler strip
1 200.00

**VA 440 010**
Stainless steel appliance cover with mounting strip
3 700.00

**VA 450 010**
Stainless steel adjustment strip 38 cm
Required accessory for combination of several Vario appliances of the 400 series with at least one appliance cover to compensate the appliance depth.
900.00
Vario Teppan Yaki 400 series
VP 414
- Cooking directly on the hardchromed metal surface, without any pots or pans
- Exact temperature control up to 240 °C
- Optimum heat distribution
- Solid stainless steel control knob
- Precision crafting of 3 mm stainless steel
- For surface installation with a visible edge or for flush installation
- Can be combined perfectly with other Vario appliances of the 400 series

VP 414 110
Stainless steel
Width 38 cm

VA 420 011
Connection strip for combination with other Vario appliances of the 400 series for surface installation with appliance cover/adjustment strip
1 200.00

VA 420 000
Connection strip for combination with other Vario appliances of the 400 series for flush installation
1 200.00

VA 420 001
Connection strip for combination with other Vario appliances of the 400 series for flush installation with appliance cover/adjustment strip
1 200.00

VA 440 010
Stainless steel appliance cover with mounting strip
3 700.00

VA 450 400
Stainless steel adjustment strip 38 cm
Required accessory for combination of several Vario appliances of the 400 series with at least one appliance cover to compensate the appliance depth.
900.00

Optional accessories
VA 461 000
Cast pan, enamelled, half size
For Vario electric grill 400 series.
For simultaneous frying and grilling on two separate surfaces
2 200.00

VA 461 001
Cast pan, enamelled, full size
For Vario electric grill 400 series.
For frying large quantities on one surface
3 100.00
Vario gas cooktop 400 series
VG 424
- 2 two-ring burners, up to 4 kW
- Automatic fast ignition, electronic flame monitoring
- Solid stainless steel control knob
- Precision crafting of 3 mm stainless steel
- For surface installation with a visible edge or for flush installation
- Can be combined perfectly with other Vario appliances of the 400 series
- Electronic flame monitoring: cannot be operated in power failure

Vario gas cooktop 400 series
VG 425
- Multi-ring burner with up to 4 kW
- Full electronic power level regulation on 12 levels
- Precise and reproducible flame size
- Automatic fast ignition, electronic flame monitoring with automatic reignition
- Simmer function for cooking on a very low output level
- Solid stainless steel control knob
- Precision crafting of 3 mm stainless steel
- For surface mounting with a visible edge or for flush mounting
- Can be combined perfectly with other Vario appliances of the 400 series

Vario gas cooktop 400 series
VG 414
- Three-ring burner up to 6 kW
- Automatic fast ignition, electronic flame monitoring
- Solid stainless steel control knob
- Precision crafting of 3 mm stainless steel
- For surface installation with a visible edge or for flush installation
- Can be combined perfectly with other Vario appliances of the 400 series
- Electronic flame monitoring: cannot be operated in power failure

Vario gas wok 400 series
VG 414
- Wok burner with 5 kW
- Stainless steel
- Width 38 cm
- Liquid gas 28 – 37 mbar
- Electronic flame monitoring: cannot be operated in power failure

Vario gas wok 400 series
VG 415
- Multi-ring burner with 5.8 KW
- Full electronic power level regulation on 12 levels
- Precise and reproducible flame size
- Automatic fast ignition, electronic flame monitoring with automatic reignition
- Simmer function for cooking on a very low output level
- Solid stainless steel control knob
- Precision crafting of 3 mm stainless steel
- For surface mounting with a visible edge or for flush mounting
- Can be combined perfectly with other Vario appliances of the 400 series

Vario gas wok 400 series
VG 416
- Multi-ring burner with 5.8 KW
- Full electronic power level regulation on 12 levels
- Precise and reproducible flame size
- Automatic fast ignition, electronic flame monitoring with automatic reignition
- Simmer function for cooking on a very low output level
- Solid stainless steel control knob
- Precision crafting of 3 mm stainless steel
- For surface mounting with a visible edge or for flush mounting
- Can be combined perfectly with other Vario appliances of the 400 series

Installation accessories
VA 420 010
Connection strip for combination with other Vario appliances of the 400 series for surface installation
1 200.00

VA 420 011
Connection strip for combination with other Vario appliances of the 400 series for surface installation with appliance cover/adjustment strip
1 200.00

VA 420 000
Connection strip for combination with other Vario appliances of the 400 series for flush installation

### 200 series gas cooktop

**VG 295**
- Top appliance in the market, up to 18 kW on 5 burners
- Solid smooth-surface cast pan supports
- Automatic fast ignition, electronic flame monitoring

** VG 264**
- Can be combined with the cooktops of the Vario 200 series to a harmonic unity
- Generous control panel for comfortable and secure operation
- Solid smooth-surface cast pan supports for easy and safe positioning of cookware
- 9.4 kW on 4 burners

**Vario gas cooktop 200 series**
**VG 264**
- Gas cooktop
  - For flush or conventional installation
  - Two-ring burner with 6000 W

**VG 295**
- Flex induction cooktop
  - Sturdy stainless steel frame
  - Flex function for combining the rectangular cooking areas
  - Free positioning of cookware inside combined cooking areas
  - Professional cooking function for splitting the cooktop into 3 predefined heat areas
  - Cooking sensor function for temperature control in pots
  - Frying sensor function for temperature control in pans
  - Suitable for 60 cm deep worktops in combination with AT 400 table ventilation
  - Twist-Pad control with removable magnetic knob
  - Easy control of all functions with bicoloured display

Ventilation

Heat and steam the ingredients, not the chef.

From the hidden and discreet to statement pieces, every model within our ventilation series performs the same function, but panders to a different space. And like black garlic, our ventilation removes the undesired effects of your gastronomic endeavours.

Ventilation is the unsung hero of the kitchen, capable of turning unbearable conditions to pleasant ones, converting odorous foods into favourites. It is not at the forefront of your mind when creating your kitchen, unless you are a chef at heart. Then it is a big deal. We have made ventilation either invisible or a show piece; in the case of the table ventilation, it is both.

Effortless, silent and clever. The ventilation 400 and 200 series capture vapours and odours from a collection of extractors which can be controlled manually or automatically, adjusting power levels in reaction to the atmosphere. From the rise and fall of the extendable table concept, the surface-mounted downdraft, the integrated modular ceiling model to the wall-mounted, island or extendable flat hood, each achieve power without bulk and extraction at a whisper.

Everything has been designed with discretion and airflow in mind, creating a system that performs exceptionally and quietly behind the scenes.
The ventilation 400 series

There is a science to perfecting a room’s ventilation. That does not mean it has to be without style. Our wall-mounted hoods complement our cooktops in both scale and ability. For those of you who prefer to work not facing the wall there are island hoods or, for those who do not want anything to get in the way with their view we offer a modular ceiling unit that can control the entire room’s environment almost regardless of size and layout.

The wall-mounted and island hoods ensure your open plan lifestyle does not include grease and vapour. The angled baffle and activated charcoal filters coupled with remote fan units make for a quiet, ruthlessly efficient odour killer. Baffle filters are slanted for optimal vapour and grease collection, it is not an accident that they also look quite impressive.

If a more minimalistic approach is desired, with nothing in clear sight, there is the cooktop ventilation designs. Where the downdraft ventilation is subtle, removing steam and odour almost unseen, the table ventilation rises from the surface like a metallic wall.

This is ventilation that is capable of so much more than you can throw at it.
The downdraft ventilation was our 1976 innovation that we have been perfecting over the decades. Seamlessly fitting into any Vario cooktops 400 arrangement, the downdraft system offers effective odour and vapour removal at source.

Utilising the same stainless steel controls as the cooktops, it blends into the series, drawing steam and odour down into the worktop. The flap and filter have been designed to reduce noise and improve airflow through the space saving flat duct system. Low profile ducting leads to floor mounted motor fans. Specially designed grease filters increase air flow and absorb more, while the charcoal filters are designed to offer greater surface area to the air before it is re-circulated into the blissfully clean room.

Within the series there are also the island and wall-mounted hood models. Highly efficient baffle filters, originally developed for professional kitchens, remove vapours almost entirely. Flush, dimmable LEDs can bathe the worktop in warm white light or provide ambient lighting for the kitchen.
The table ventilation rises and falls from the island, capturing the vapour and odours from the very top of the pans, while directly illuminating the worktop without catching the eye through dimmable LEDs. Each system is designed with an automated ventilation feature that vents the area for a few minutes every hour and it is equally happy to extract or recirculate the air.

The Vario ceiling ventilation is a modular, modernist solution integrated into the architecture. With the fan unit housed externally, the flat profile need only accommodate the dimmable lighting, filters and ducting. Finally, you have a remote control that can clear a room, fast.
The ventilation 200 series

The 200 series offers the private chef a determinedly efficient set of options. From the downdraft at counter level to wall-mounted and island hoods. Eye-catching angled canopy hoods to integrated ceiling ventilation, invisible canopy extractors and flat kitchen hoods hidden within kitchen units. These stainless steel ventilation units feature a host of considered benefits.

Each provide high-powered illumination or attractive mood lighting, recirculating or externally venting the air. Simple to manage, easily removable filters are dishwasher-safe as well as utterly effective. They can also be manually controlled or function on automatic, self-adjusting the fan speed depending upon the fumes it detects. Their quiet power impresses.

Air movement never looked so good.
Ventilation

Ceiling ventilation in the striking 200 series offers two options: either discreet integration into the architecture of the kitchen or directly installed on the ceiling.

The downdraft ventilation was our invention in 1976, it is for those who prefer their ventilation unseen and away from their head. At 8.5 cm wide, it is the minimalist hero of the Vario 200 series, quietly removing odours, vapours and grease, without making a big thing out of it.

The wall-mounted hood, where cupboards are not in the way, there are the statuesque wall-mounted hood options. 70 cm to 120 cm of stainless steel, energy efficient, vapour extraction, with an attractive and easy to clean, flat underside and near complete odour elimination. It looks effective because it is.

The island hood impresses in terms of technology as well as appearance, with dimensions from 90 cm to 120 cm wide. Classic box or stepped design. Extremely efficient due to the rim extraction filter and optimal airflow interior. The integrated LED lights puts either style in the spotlight.

The angled canopy hood is not simply a strong design, making a feature of its impressive stainless steel underside. It is slanted to provide a large surface area and frees up the head space above the cooktop. Tall chefs: you are welcome.

Stainless steel is evident throughout our ventilation system. It encases everything, rigidly maintaining both the aesthetic and functional integrity.
The flat kitchen hood completes the 200 series as the non-compromising, space-saving solution. It sits effortlessly within the confines of a 60 cm to 90 cm width. Discreet, extendable and quiet. It opens out beyond the cupboard via a clever mechanism and an optional lowering frame allows the hood to be completely concealed within.

The structure offers an integrated glass panel, dimmable lights, four power levels as well as an automatic function that works out its optimal power level. All of which slots neatly back into invisible obscurity when you are done.
The ventilation 400 series

Vario downdraft ventilation 400 series
VL 414

- Highly efficient ventilation system at the cooktop
- Up to 4 ventilation elements can be connected to one remote fan unit, operated using one control knob AA 490
- Flexible power distribution, precise extraction of cooking vapours only at the open ventilation elements
- Precision crafting of 3 mm stainless steel
- For surface installation with a visible edge or for flush installation
- Can be combined perfectly with other Vario appliances of the 400 series
- Minimal planning and easy installation for air recirculation
- Appropriate fan motor to be selected
- Please see planning notes in models and dimensions

- 100cm width Air extraction: 850m³/h
  Air recirculation: 570m³/h
- 90cm width Air extraction: 850m³/h
  Air recirculation: 570m³/h

Optional accessories

AA 200 110
Active charcoal filter for retrofitting recirculation module AA 200 812/816

AD700 051
Wall outlet Stainless steel DN200 round

AD 750 051 / 3
Wall outlet with telescopic duct Stainless Steel / Plastic DN150 round

Installation accessories

AD 200 326
Stainless steel chimney extension
Length: 1100 mm

AD 220 396
Ceiling collar for air ducts Stainless steel

AD 223 346
Extension for mounting kit 500 mm

AD 223 356
Adapter for roof inclination left/right
Optional accessories.
Adapter for island chimney hood.
For mounting on a inclined roof to the left or to the right.
Suitable for roof inclination from 20 – 45 degrees.

AD 223 366
Adapter for roof inclination front/back
Optional accessories.
Adapter for island chimney hood.
For mounting on a inclined roof forwards or backwards.
Suitable for roof inclination from 20 – 45 degrees.
Island hood 200 series

AI 230
- Classic Gaggenau design
- Highly efficient extraction of cooking vapours
- Energy-saving, low-noise fan
- Patented filter technology with high level of grease absorption
- Rim extraction filter with flat and easy-to-clean stainless steel underside
- Function for automatic, sensor-controlled power adjustment depending on the build-up of cooking vapours
- Dimmable LED light for optimum illumination of the whole cooktop
- Air extraction or recirculation system
- Recirculation module with activated charcoal filter: Silent and highly efficient air recirculation solution with odour reduction comparable to air extraction and long replacement intervals
- Energy efficiency class A
- Installation accessories for air recirculation please consult models and dimensions.
- 120cm width: Air extraction 890m³/h
  Air recirculation 570m³/h
- 100cm width: Air extraction 850m³/h
  Air recirculation 570m³/h
- 90cm width: Air extraction 850m³/h
  Air recirculation 570m³/h

Optional accessories
AA 200 110
Active charcoal filter for retrofitting recirculation module AA 200 812/816
1 900.00

AA 200 816
Recirculation module with activated charcoal filter
For air recirculation (can be combined with island hoods).

Optional accessories
AD 200 326
Stainless steel chimney extension
Length: 1100 mm
8 700.00

AD 220 396
Ceiling collar for air ducts Stainless steel
3 200.00

AD 223 346
Extension for mounting kit 500 mm
1 700.00

AD 223 356
Adapter for roof inclination left/right
Optional accessories.
Adapter for island chimney hood
For mounting on an inclined roof to the left or to the right.
Suitable for roof inclination from 20 - 45 degrees.
2 000.00

AD 223 366
Adapter for roof inclination front/back
Optional accessories.
Adapter for island chimney hood
For mounting on an inclined roof forwards or backwards.
Suitable for roof inclination from 20 - 45 degrees.
2 000.00

Canopy extractor 200 series

AC 200
- Can be integrated invisibly in upper cabinet
- Energy-saving, low-noise fan
- Rim extraction with flat and easy-to-clean glass cover
- Dimmable, neutral white LED light for ideal illumination of the whole cooktop
- Air extraction or air recirculation system
- Energy efficiency class A
- Installation accessories for air recirculation please consult models and dimensions.
- 70cm width: Air extraction 770m³/h
  Air recirculation 740m³/h
- 86cm width: Air extraction 820m³/h
  Air recirculation 790m³/h

Optional accessories
AA 210 810
Remote control for canopy extractor
AC 200
1 700.00

AA 210 812
Patented air recirculation module including 1 activated charcoal filter with high efficient odour reduction due to increased surface
For air recirculation.
4 700.00

Ceiling ventilation 200 series

AC 250
- Discreet integration into the architecture of the kitchen Energy-saving, low-noise fan
- Rim extraction
- Planed and easy to clean underside
- Air extraction/Air recirculation
- Air extraction 780m³/h
  Air recirculation 570m³/h

Optional accessories
AA 010 810
Air recirculation module inclusive 1 activated charcoal filter with high efficient odour reduction due to increased surface Stainless steel Odour reduction comparable to air extraction mode (95%). Extended change interval for the activated charcoal filter.
Comprises design panel, wall mount, activated charcoal filter, flexible pipe and 2 hose clamps. Pipe connection to the front, sideways or at the top.
15 000.00

AC 250 190
Stainless steel
Width 90 cm
Air extraction/Air recirculation 50 000.00

Optional accessories
AA 010 810
Air recirculation module inclusive 1 activated charcoal filter with high efficient odour reduction due to increased surface Stainless steel Odour reduction comparable to air extraction mode (95%). Extended change interval for the activated charcoal filter.
Comprises design panel, wall mount, activated charcoal filter, flexible pipe and 2 hose clamps. Pipe connection to the front, sideways or at the top.
15 000.00

AC 250 180
Stainless steel and glass
Width 70 cm
Air extraction/Air recirculation 16 000.00

AC 200 190
Stainless steel and glass
Width 86 cm
Air extraction/Air recirculation 17 000.00

Optional accessories
AA 210 810
1 activated charcoal filter with high efficient odour reduction due to increased surface. For air recirculation module AA 200 812/816 and AA 010 810.
7 000.00
Flat kitchen hood 200 series

AF 210
- Unobstructed flat kitchen hood
- Design thanks to integrated glass panel in the steam screen
- Especially quiet operation thanks to integrated sound insulation
- A special mechanism extends the steam screen automatically
- Steam screen and visible corpus made of brushed stainless steel
- Especially high air output
- Energy-saving, low-noise fan
- Function for automatic, sensor-controlled power adjustment depending on the build-up of cooking vapours
- Dimmable, warm white LED light for ideal illumination of the whole cooktop
- The patented lowering frame allows the flat kitchen hood to disappear completely into the upper cabinet
- Air extraction or air recirculation system
- Air recirculation module with activated charcoal filters: quiet and highly efficient air recirculation solution with odour reduction as in air extraction mode and long replacement intervals
- Energy efficiency class A+
- 90cm width Air extraction 930m³/h
  Air recirculation 890m³/h
- 60cm width Air extraction 930m³/h
  Air recirculation 890m³/h

Installation accessories

AA 210 460
Lowering frame for 60 cm flat kitchen hood
- 3 500.00

AA 210 490
Lowering frame for 90 cm flat kitchen hood
- 4 100.00

A 210 491
Assembly kit for 90cm upper cabinet
- 1 300.00

Optional accessories

AA 210 810
1 activated charcoal filter with high efficient odour reduction due to increased surface. For air recirculation module AA 200 812/816 and AA 010 810.
- 1 700.00

Vario downdraft ventilation 200 series

VL 040/ VL 041
- Ventilation element integrated in the worktop
- Highly efficient ventilation system at the cooktop
- Minimal planning and easy installation for air recirculation
- Appropriate fan motor to be added
- Please see planning notes in models and dimensions

Necessary installation accessories

AR 403 121/2
Remote fan unit
Metal housing
Max. air output 830 m³/h
Inside installation
Air extraction
- 18 500.00

AR 413 121/2
Remote fan unit
Metal housing
Max. air output 761 m³/h
Plinth installation
Air extraction
- 19 500.00

AD 704 048
Air collector box round duct for AL 400 DN150 round
- 2 200.00

AD 724 041
Connection piece for round pipe DN 150
Necessary for installation to left or right side of VL 414/VL 040/041.
- 1 400.00

AD 724 042
Connection piece for round pipe DN 150
For VL 414/VL 041/VL 040.
For installation to left or right side of VL additional adapter AD 724 041 is necessary.
- 1 100.00

AS 070 001
Connection piece for extension in the case of installation next to VK or VF
- 1 400.00

LS 041 001
Air baffle for VL 040/041 next to gas appliance
- 980.00

VV 200 014
Stainless steel connection strip for combination with further Vario cooktops
- 1 200.00

AA 419 110
2 activated charcoal filter with high efficient odour reduction due to increased surface. For remote fan unit plinth AR 413 121/122
- 1 950.00
Remote fan unit
AR 401
- AR 401 142 for maximum output for downdraft ventilation and motorless hoods
- Outside installation allows lower noise level in the kitchen
- To be combined with motorless hoods, downdrafts or ceiling ventilation
- External application
- Please consult models and dimensions for installation requirements

Cooling
Freshness, extend it.

To complete your kitchen is our extensive cooling portfolio. A range with the ability to sense and react to the most delicate and demanding of foods in an intelligent way. One such ingredient is the large, fragrant Japanese Shiso mint leaf: a delicate seasoning, a bold garnish and even a wasabi receptacle.

Some provisions require that little bit longer to mature, while others favour a particularly cool environment. The Vario 400 and 200 series refrigerators, freezers, fridge-freezer combinations and wine climate cabinets suit every demand, with precise cooling technology and up to four different climate zones. Food wastage is kept to a minimum: radicchio will stay crisper, mangoes will last longer, meat and fish life will be prolonged.

For the wine lover, a fine wine requires just as much thought and delicacy as an exotic fruit. Your wine needs to be stored, showcased and prepared for enjoyment. These are competing functions, which your wine climate cabinet, equal to a wine cellar, achieves with unflappable aplomb.
The Vario cooling 400 series

A fully integrated, built-in modular family: refrigerators, freezers, fridge-freezer combinations and wine climate cabinets can be partnered in a multitude of ways to create an impressive display. Should you wish them to stand out you can even customise the effect with the addition of stainless steel or aluminium doors.

One of the quietest products in their class with insides panelled entirely in stainless steel. Illuminated by LED light pillars and ceiling spot lights, climate zones can be precisely controlled to create the perfect environment for the fussiest salad leaf. Inspired by the professional kitchen, the hand fitted door racks are solid aluminium providing an exceptionally hygienic interior. All of these combined with their aesthetic beauty sets the 400 series apart.

Our wine climate cabinets are equally exacting, display lighting and crafted bottle trays show off your coveted wine collection like an art exhibit. Two separate zones control both the temperature and humidity, providing you with a cellar environment and the perfect drinking temperature. All you need do is remove the cork.
The cooling range comes in four different widths from 45.7 cm to 91.4 cm for a double door. Several freezer models dispense ice and water from the door and others challenge you to fill a cavernous internal, frost-free space.

Beautifully reflected in the stainless steel ceiling spots and diffused strip lighting stretches down the LED light pillars. Light illuminates the space without blinding the eye.

Exceptional performance is combined with intelligent flexibility. Even when ladened with delicious foods, the motorised shelf can adjust with the mere touch of a finger. Tap a discreet button on the light pillar and it gracefully glides up and down.

Cooling precision is assured with evenly distributed temperatures. A variety of climate zones can be individually adjusted and each setting is absolutely accurate, to the degree. Ideal storage conditions are also met inside the cooling drawer, preserving your meat and fish for longer, thanks to temperatures close to 0 °C.
The wine climate cabinets

For the serious wine aficionados, wine is a passion bordering on obsession, equalled only by the desire for the ultimate in storage.

A wine climate cabinet needs to not only maintain constant temperatures ensuring storage precision, but also showcase your collection whilst enhancing the prestige of your kitchen.

The wine cabinets offer a choice of different sizes, inviting you to regularly add to your wine collection. Sophisticated technology serves different climate zones with humidity control, fully extendable untreated beech and aluminium shelving protects wine from damaging aromas. Further, the wine climate cabinets are very quiet with minimal vibration. So part of your collection can be laid down to sleep in cellar-like conditions and the part that should be enjoyed now, can be. With controlled temperatures ensuring bottles can be served on demand.

Cabinets within easy reach along with appropriate accessories ensure decanters or opened bottles maintain their perfect temperature, so you can serve guests with perfectly chilled wine throughout your meal. You can even utilise the presentation light to subtly highlight to your guests what they are enjoying.
With niche widths of 45.7 cm to 61 cm and heights between 82 cm and 213 cm, the wine climate cabinets can be fully integrated into a wall configuration or fitted beneath a counter. Electronic temperature control guarantees constant temperatures between 5 °C and 20 °C.

Illuminate the wine or decanter you are currently plundering with the dimmable presentation light. It highlights without adversely affecting the contents and the cabinet maintains the wine’s temperature, so that each glass is sampled at its best.

**Integrated wine climate cabinet** blends effortlessly into a cooling wall concept providing far too easy access to your prized possessions. While the special glass door protects the wine from UV damage, the lock is the only thing protecting it from you.

**Under-counter wine climate cabinet** integrates perfectly into any kitchen, whilst offering every function, including one or two climate zones and even a presentation light. It may be small in size but holds up to a substantial 42 bottles in perfect comfort.

Untreated beech rods gently secure the wine, causing no harm to delicate labels. Added to the aluminium trays, the interior environment has been constructed with materials designed to have no effect upon aroma or taste, the internal air is even passed through activated charcoal filters. Finally, exceptional engineering has gone into making the compartment virtually vibration free and the cushioned door closing system ensures you do not disturb any remaining bottles.
The Vario cooling 200 series

This range of refrigerators, fridge-freezer combinations and freezers fits perfectly into any standard integrated kitchen design and yet manages to offer greater internal space than standard cooling appliances.

We achieved this with some intelligent engineering, relocating part of the technology into the plinth. So not only do you have greater space to play with, but you also have some rather brilliant advantages: up to four climate zones, Gastronorm insert shelving and the fresh cooling drawer that maintains the originality of your salmons, steaks or artichokes.

Smooth running fully extendable shelves and drawers mean all that clever space is easy to access. And when you do, finally, close the door, it will soft close for you.
Elegant and impressively efficient, the fridge-freezer, refrigerator and freezer range offers multiple combinations. Each with a niche dimension of 56 cm wide and 140 cm or 177.5 cm high. With a more considered and innovative approach to their development everything has been maximised: space, performance, energy efficiency and choice.

Private chefs know that there are great differences in how food needs to be stored. With our refrigerators, foods can be separated and enjoy bespoke preservation. Alongside one generous cooling zone there are numerous drawers, one with humidity control for delicate and precious groceries.

Stepped shelving allows for that extra large item to fit in, effortlessly. Special Gastronorm inserts can be added, expanding your cuisine accomplishments, making it a seamless journey from prep and fridge to cook and serve. Not only will you save on dishes, you will make the most of the internal space. The inserts slide smoothly into specific slots, neat, tidy, perhaps even a little proud of itself.

The considerable 177.5 cm high fridge-freezer combination provides an extra climate zone within its enlarged flexible space. The 4-star freezer is equipped with a No-Frost technology, removing the burden of thawing it out. Other impressive functions include electronic temperature regulation and fast freezing.

The wine and champagne racks hold up to four bottles and should you ever find yourself without, the rack folds out of the way.
The cooling 400 series

Vario fridge-freezer combination
400 series
RY 492
- Stainless steel interior
- Generous lighting concept
- Solid aluminium door racks
- Net volume 526 litres
- Integrated ice maker with fixed inlet water connection
- One motorised glass shelf, adjustable when fully loaded
- One asymmetrically split glass shelf
- Fully extendable freezer drawer with practical divider
- Energy efficiency class A+

Installation accessories
RA 421 912
Stainless steel door panels with handles
For RY 491/492, panel thickness 19 mm.
- With two doors
  156 000.00

Included accessories
1 egg holder with lid
1 ice cube scoop

Necessary installation accessories
RA 460 000
Accessory for side-by-side installation.
Required if appliances are installed handle to handle. Not required if appliances are installed more than 160 mm apart from each other.
- 2 200.00

RA 460 011
Additional side heating element.
Required if appliances are installed handle to hinge or hinge to hinge. Not required if appliances are installed more than 160 mm apart from each other.
- 7 600.00

Niche height 213.4 cm
Right-hinged $111 000.00

RF 413 301
fully integrated
Niche width 45.7 cm,
Niche height 213.4 cm
Left-hinged $111 000.00

Necessary installation accessories
RA 460 011 Additional side heating element.
Required if appliances are installed handle to hinge or hinge to hinge. Not required if appliances are installed more than 160 mm apart from each other. $7 600.00

RA 460 011 Additional side heating element.
Required if appliances are installed handle to hinge or hinge to hinge. Not required if appliances are installed more than 160 mm apart from each other. $7 600.00
### Vario wine climate cabinet 400 series

- **RW 464/RW 414**
  - Two independently controllable climate zones
  - Consistent temperatures with exact control from +5 °C to +20 °C
  - Humidity control
  - Stainless steel interior
  - Fully extendable bottle trays in beech and aluminium
  - Presentation light option
  - Low-vibration operation
  - Capacity 99/70 bottles
  - Aluminium profiles of bottle trays and presenters for single bottle display can be labeled with Stabilo All 8046 pencil.

#### Installation accessories

- **RA 421 111**
  - Stainless steel door panel frame with handle. For 45.7 cm wide appliances, left-hinged, panel thickness 19 mm.
  - 7 800.00

- **RA 421 112**
  - Stainless steel door panel frame with handle. For 45.7 cm wide appliances, right-hinged, panel thickness 19 mm.
  - 7 800.00

- **RA 421 611**
  - Stainless steel door panel frame with handle. For 61 cm wide appliances left-hinged, panel thickness 19 mm.
  - 12 900.00

- **RA 421 612**
  - Stainless steel door panel frame with handle. For 61 cm wide appliances right-hinged, panel thickness 19 mm.
  - 12 900.00

#### Installation accessories cont.

- **RA 425 110**
  - Handle bar, stainless steel, long
  - With 3 mounts, length 1131 mm, drilling distance between each mount 554 mm.
  - 2 600.00

- **RA 491 631**
  - Fully extendable bottle tray in beech and aluminium. For 61 cm wide appliances.
  - 2 800.00

- **RA 420 010**
  - Door lock
  - TBA

- **RA 460 040**
  - Finger protection for extra long furniture fronts
  - 1 100.00

- **RA 461 116**
  - Ventilation grille stainless steel
  - For 45.7 cm wide appliances.
  - 3 500.00

- **RA 461 616**
  - Ventilation grille stainless steel
  - For 61 cm wide appliances.
  - 3 500.00

### Wine climate cabinet

- **RW 404**
  - Two independently controllable climate zones
  - Consistent temperatures with exact control from +5 °C to +20 °C
  - Humidity control
  - Extendable bottle trays in beech and aluminium
  - Presentation light option
  - Lockable door
  - Capacity 34 bottles
  - Cushioned door closing system
  - Side-by-side installation possible with special accessory
  - Energy efficiency class A

#### Optional accessories

- **RA 050 220**
  - Replacement activated charcoal air filters, set of two, for upper and lower temperature zone. For RW 404.
  - 1 100.00

- **RA 097 600**
  - Accessory for side-by-side installation of two under-counter wine cabinets.
  - 5 000.00

---

**RW 464 361**
- fully integrated, with glass door
- Niche width 61 cm, Niche height 213.4 cm
  - 130 000.00

**RW 414 361**
- fully integrated, with glass door
- Niche width 45.7 cm, Niche height 213.4 cm
  - 102 000.00

**RW 404 261**
- under-counter, stainless steel-framed glass door
- Niche width 60 cm, Niche height 82 cm
  - 46 000.00
## The cooling 200 series

### Refrigerator

**RC 282**
- Two climate zones incl. fresh cooling
- Height adjustable safety glass shelves
- Door racks with aluminum profiles
- Net volume 319 litres
- Cushioned door closing system allowing a soft and controlled door closure
- Energy efficiency class A++
- Matches RF 282 203

**Optional accessories**
- RA 030 100
  - Storage container with transparent lid.
  - Included accessories
    - 2 egg trays
    - 1 wine and champagne rack

### Freezer

**RF 282**
- Net volume 211 litres
- Flexible interior configuration: all drawers and safety glass shelves can be removed
- Combines with fridge RC 282 (Side-by-Side integration)
- Cushioned door closing system allowing a soft and controlled door closure
- Energy efficiency class A++
- Matches RC 282 203

**Included accessories**
- 2 ice packs
- 1 ice cube tray

---

### Fridge-freezer combination

**RT 282**
- Three climate zones incl. fresh cooling
- Height adjustable safety glass shelves
- Door racks with aluminum profiles
- Net volume 286 litres
- Cushioned door closing system allowing a soft and controlled door closure
- Energy efficiency class A++

**Optional accessories**
- RA 030 100
  - Storage container with transparent lid.

**Included accessories**
- 2 egg trays
- 1 wine and champagne rack
- 1 ice cube tray
Vario refrigerator 200 series

**RC 289**

- Unique usage concept:
- Maximum usage of interior: stepped shelf, full depth shelves as well as integrated fixtures for various containers
- Easy access: fully extendable shelves and drawers
- Optimal overview: intelligent lighting concept, use of glass and transparent materials
- Efficient preparation, cooling and storage with Gaggenau appliances: integration of Gastronorm inserts
- Enlarged interior with 302 litre net volume through compressor relocation
- Combines with freezer RF 287 (Side-by-Side-Integration)
- Cushioned door closing system allowing a soft and controlled door closure
- Smooth running fully extendable telescopic pull out racks and a cushioned closing system allow a soft and controlled closure of the drawers
- Energy efficiency class A++
- Matches RF 287 202

**Included accessories**
- 2 egg trays
- 1 wine and champagne rack
- 1 glass tray
- 1 Gastronorm insert, stainless steel, GN 1/3 unperforated
- 1 Gastronorm lid, stainless steel, 1/3

**Optional accessories**
- GN 114 130
  - Gastronorm insert, stainless steel, GN 1/3
  - Unperforated, 40 mm deep, 1.5 l.

- GN 114 230
  - Gastronorm insert, stainless steel, GN 2/3
  - Unperforated, 40 mm deep, 3 l.

- GN 410 130
  - Gastronorm lid, stainless steel, GN 1/3

- GN 410 230
  - Gastronorm lid, stainless steel, GN 2/3

- RA 030 100
  - Storage container with transparent lid

---

Vario freezer 200 series

**RF 287**

- Enlarged interior with 213 litre net volume through compressor relocation
- Flexible interior configuration: all drawers and safety glass shelves can be removed
- Cushioned door closing system allowing a soft and controlled door closure
- Energy efficiency class A++
- Matches RC 289 203

**Included accessories**
- 2 ice packs
- 1 ice cube tray

---

**RC 289 203**

- with fresh cooling close to 0 °C
- fully integrated
- Niche width 56 cm,
- Niche height 177.5 cm

**43 000.00**

**Included accessories**
- 2 egg trays
- 1 wine and champagne rack
- 1 glass tray
- 1 Gastronorm insert, stainless steel, GN 1/3 unperforated
- 1 Gastronorm lid, stainless steel, 1/3

---

**RF 287 202**

- fully integrated
- Niche width 56 cm,
- Niche height 177.5 cm

**38 000.00**

**Optional accessories**
- 2 ice packs
- 1 ice cube tray

---

**GN 114 130**
- Gastronorm insert, stainless steel, GN 1/3
- Unperforated, 40 mm deep, 1.5 l.

**1 090.00**

**GN 114 230**
- Gastronorm insert, stainless steel, GN 2/3
- Unperforated, 40 mm deep, 3 l.

**1 100.00**

**GN 410 130**
- Gastronorm lid, stainless steel, GN 1/3

**570.00**

**GN 410 230**
- Gastronorm lid, stainless steel, GN 2/3

**880.00**

**RA 030 100**
- Storage container with transparent lid

**780.00**
Fridge-freezer combination
RB 282
- Three climate zones incl. fresh cooling
- Height adjustable safety glass shelves
- Door racks with aluminum profiles
- Innovative defrost technology:
  - Reduced energy consumption due to new evaporator design
  - Faster defrosting and easier cleaning due to less severe and more uniform ice build-up
- Safety glass shelf between freezer drawers
- Net volume 270 litres
- Cushioned door closing system allowing a soft and controlled door closure
- Energy efficiency class A++
Optional accessories
RA 030 100
Storage container with transparent lid
Included accessories
2 ice packs
2 egg trays
1 wine and champagne rack
1 ice cube tray

Fridge-freezer combination
RT 200
- Net volume 123 litres
- Cushioned door closing system allowing a soft and controlled door closure
- Energy efficiency class A++
Optional accessories
RA 030 100
Storage container with transparent lid
Included accessories
1 egg tray
1 ice cube tray

Refrigerator
RC 200
- Combines with freezer RF 200 (Side-by-Side)
- Net volume 138 litres
- Cushioned door closing system allowing a soft and controlled door closure
- Energy efficiency class A++
Optional accessories
RA 030 100
Storage container with transparent lid
Included accessories
1 egg tray

Freezer
RF 200
- Combines with cooler RC 200 (Side-by-Side)
- Net volume 98 litres
- Cushioned door closing system allowing a soft and controlled door closure
- Energy efficiency class A+
Included accessories
2 ice packs
1 ice cube tray

Dishwashing

Because not everything is just a dish.

They are precious, fragile, carefully protected for decades, holding more memories than food and witnesses to your family at its most natural. Treat your crockery to the dishwasher they deserve. And as with truly great cooking, some modern tableware proudly shows off the handcrafted techniques used to create it.

Our dishwasher 400 and 200 series sit seamlessly in a Gaggenau kitchen featuring all the little, and not so little, touches you have come to expect from us. From the intuitive controls of the TFT displays, handleless push-to-open doors, Zeolite technology for speedy cycles and clever loading options that adapt for awkward and precious items, plus an interior that illuminates the cleanliness.

Washing up is never going to be fun, but it can be made exceptional.
The dishwashers 400 series

A gentle nudge opens the handleless door, baskets can be gently glided out on smooth running rails, a little push and it all soft-closes itself. All is designed to cushion your delicate glass and porcelain whilst deceiving you into thinking you are doing something far more special than mundanely loading the dishwasher.

Choose from two heights, 81.5 cm or 86.5 cm, with flexible hinges available for longer furniture fronts. Liberal with space, powerful and quick it is also smart, with a multitude of washing options, a flexible basket system, clever long stemmed glass holder and Gastronorm insert. This is an accommodating space, where great care has gone into every folding spine and adjustable rack. Zeolite technology reduces the eight programme times, enhances drying and decreases energy use.

This series is skilful, it can even project the remaining time of the programme onto the floor, on models without flexible hinges.
The control panel with TFT display details the eight wash programmes with six options. While some are guided by internal sensors, they can be combined to operate on Power or Intensive yet be sensitive with the delicates.

Innovative Zeolite technology helps all our dishwashers within the series achieve their A+++ energy rating and speed. It is an eco-friendly mineral that absorbs moisture as it releases heat, Zeolite helps wash and dry a full load in under an hour and protects delicate glassware by drying them at a lower, gentler temperature.

As powerful as the range is, they are also quiet and delicate with push-to-open and cushioned closing. Smooth running rails are on two or three levels, upper baskets can adjust to three heights and the cutlery drawers can be enlarged to hold items such as cooking utensils and espresso cups. For ease of use the interior is also handsomely illuminated.
The dishwashers 200 series

Meticulous, considerate, and clever, the dishwashers 200 series performs above expectations.

Different heights and widths, up to six programmes with four adjustable options, a flexible basket system and for some designs the remaining time of a cycle is projected onto the floor. These are dishwashers that succeed in making life easier.

Open the door and it offers up its contents on smooth running rails. This subtle touch carefully glides your precious glasses and crockery into and out of the gentle, yet thorough machine. The only time your wine glasses should clink together is when you are drinking from them.
Two models feature the TFT control in a stainless steel panel on the front of the fascia. They also offer a smart innovation if you are going on vacation or leaving your country abode: they open the door at the end of their wash cycle, when on Eco 50 °C programme, to air themselves and their contents.

There are both integrated as well as fully integrated dishwashers in the 200 series, all with an impressive A++ energy rating. Most offer a flexible basket system, folding spines, smooth running rails, special holders, over extendible and height adjustable upper basket and numerous intricate adjustments, enabling it to fit around your kitchenware. To fit into your individual kitchen, flexible hinges are available on some models to accommodate extra length frontage and narrow plinths.

Six programmes, some sensor-controlled, which can be combined with four options, such as Power or Intensive. Or, given the technical skills of our Research and Development department, you could just choose one of our suggestions.
The dishwasher 400 series

**Dishwasher DF 481**
- Optimal protection for sensitive glassware by low temperature drying with zeolite and intelligent water softening
- 8 programmes with aqua sensor and 6 options, such as Power and Intensive: Clean and dry dishes in 57 minutes
- Intensive cleaning in the lower basket while protecting glassware in the upper basket
- Flexible basket system with smooth running rails on all levels and cushioned closing of the upper and lower basket
- TFT display for intuitive handling of all functions
- Perfectly illuminated interior
- Push-to-open function for perfect integration into handleless furniture fronts
- Very quiet: 43 dB
- Energy efficiency class A+++ 
- Aqua stop with guarantee

**Included accessories**
- 1 x baking tray spray head
- 1 x glass holder rack
- 1 x GN container insert

**Optional accessories**
- DA041160 Cutlery drawer with smooth running rails
  - 2 400.00
- DA 042 030 Silvercare cartridge for all dishwashers
  - 660.00
- DA 043 000 Holder for long-stemmed glasses
  - Offers safe positioning for up to four long-stemmed glasses during the dishwashing process and ensures an optimal cleaning result
  - 1 200.00

**DF 481 161F**
- Fully integrated with flexible hinge
- Height 86.5 cm
- 35 000.00

**DF 480 161F**
- Fully integrated with flexible hinge
- Height 81.5 cm
- 35 000.00

The dishwasher 200 series

**Dishwasher DF 260/261 164 F**
- Optional door opening at the end of the programme to support the hygienic drying process
- 6 programmes with aqua sensor and 4 options, such as Power and Intensive: Clean and dry dishes in 59 minutes
- Intensive cleaning in the lower basket while protecting glassware in the upper basket
- Flexible basket system with smooth running rails on all levels
- TFT display for intuitive handling of all functions

The laundry appliances 200 series

The Gaggenau washing machine is the first choice when it comes to fresh laundry. Low water and energy consumption, large volume capacity and an extremely long life are just some of the impressive features that will win you over.

Constant consumption values and maximum convenience this is the motto of the Gaggenau condenser dryer. Heat pump technology, energy efficiency class A and humidity- and time-controlled cycles make it an indispensable appliance in every household.

Revelations

A beautiful enclosure of culinary delight. This is the promise of Gaggenau, the expectation of the chef, the realisation of the diner.

As the Physalis illustrates, exceptional design, quality and functionality need not compromise visual appeal, instead it fuels an ever-changing nature. This evolving design ethos, 333 years in the making, continues to unfurl ahead of us.
Please note that certain features apply to certain products. Gaggenau built-in appliances are guaranteed for 5 years from date of purchase against faulty workmanship and/or material. CM450 and CMP250 coffee machines are guaranteed for 3 years. No responsibility is accepted for printing error. E&OE. All prices are recommended retail prices inclusive of VAT.
Beyond the kitchen

Explorations of authentic, extraordinary and uncompromising visionaries, artists, artisans and topics around the world can be discovered in our magazine ‘new spaces’. Areas of interest include cuisine, architecture, art, design and anything else that catches our eye.

You will also enjoy our insightful diversions: ‘Essays’ on culture and lifestyle on our website and for the more socially minded, we will be posting on Instagram, Pinterst and Vimeo.

Enlightening previews of the avant-garde for the cultural cognoscenti.
