

**Versatile and practical.** The fully extendable pull-out system allows safe and convenient access to your oven interior during broiling, baking, rotisserie cooking or preparation of food in Gaggenau's Gastronorm roaster. The roaster, made of cast aluminum with a non-stick surface, can also be used on Gaggenau's induction cooktops and Combi-steam ovens. Due to its unique design, the lid also serves as a casserole dish or as a piece of cookware.

**From cooktop to Teppan Yaki.** With these unique Gaggenau accessories, available in two different sizes, induction cooktops can easily be converted into a Teppan Yaki. Inspired by the Japanese cuisine, "teppanyaki" style cooking is a healthy and exciting way to prepare a delicate course.

**Traditional baking just like in a professional brick oven.** The Gaggenau baking stone fits in all Gaggenau ovens and can be used to perfectly prepare Tarte flambée, pizza and bread. A separate heating element heats the solid stone from underneath to temperatures up to 550°F – creating a crispy base for baked goods. Now your pastries can rival the Danish, your pizza, the Neapolitans, and your baguette, the French.

The difference is Gaggenau.
