**Features**

- **Net volume:** 9.7/13.7 cu.ft.
  - Capacity 70 (18")/99 (24") bottles (based on 0.75/l standard bottles).
  - 12 bottle trays,
    - 6/10 fully extendable trays
    - 3 suitable for storage of Magnum bottles.

- **Flexible interior configuration possible by adding or removing fully extendable bottle trays.**

- **Storage of up to 6 /12 bottle trays.**

- **5 different lighting scenarios can be selected for individual wine presentation.**

**Consumption data**

- **Energy consumption:**
  - (18") 369, (24") 456 kWh/year.

- **Noise level:** 43 dBA.

**Planning notes**

- **Flat hinge.**

- **Door hinge right, reversible.**

- **Door opening angle of 115°, fixable at 90°.**

- **Max. door panel weight 160/167 lbs.**

- **Plan a power outlet outside of the cut-out.**

- **No transport/operation above 5,000 feet (1,500 m) sea level.**

- **Rating**
  - **Total rating (18") 1.01, (24") 1.25 kW/24h.**
  - **Total Amps:** 15 A.
  - **120 V / 60 Hz**

**RA 460 020**

- Connecting element for vertically split appliance fronts (for a flush front).

**RA 460 013**

- Additional side heating element 110 V.
  - Required if appliances are installed handle to hinge or hinge to hinge. Not required if appliances are installed more than 6" (160 mm) apart from each other.

**RA 460 020**

- Connecting element for vertically split appliance fronts (for a flush front).
The door face dimensions are designed for a maximum gap of 1/8" (3 mm).  
* For a flush-mounted appearance, the minimum cut-out depth must be 25".  
See more details on pages 223 and 225.

**Bottle storage**

- 0.195 Gallon (0.75 Liter)
- ø 1 1/4" (30)
- 11 1/4" (300)
- ø 2 1/4" (50)

Bottle storage capacity:
- 70 bottles
- 99 bottles

Numbers indicated inside parenthesis ( ) = mm
