

AA200890

Recirculation module

AA200890

- For air recirculation.
- Easy removal of the air recirculation module from the top of the table ventilation.
- Highly efficient odour reduction for cooking applications with complex odour molecules (e.g. fish and seafood).
- The filter retains an extremely high amount of airborne pollen and deactivates allergens, which are retained by the filter. For air recirculation.

Easy removal of the air recirculation module from the top of the table ventilation.

Highly efficient odour reduction for cooking applications with complex odour molecules (e.g. fish and seafood).

The filter retains an extremely high amount of airborne pollen and deactivates allergens, which are retained by the filter.
