Performance

Dynamic Wash System: innovative washing technology for increased cleaning performance
Innovative BLDC motor technology for more performance, higher durability as well as less energy consumption and noise.
Stainless steel drum with wave structure.
Spin speed selection from 400 to 1600 rpm.
Operating noise level for washing Eco 40-60, Rinse +2, 1600 rpm at full load in dB (A):47
Operating noise level for spinning at Eco 40-60, Rinse +2, 1600 rpm at full loading in dB (A): 72
Aqua stop water safety system. An electronically controlled water protection system to prevent any water damage

Aqua sensor. Which works with the Aqua stop for detection of leak in the water system
Flow-through sensor.
Continuous automatic load adjustment.

Features

TFT display with clear text and symbols.
Touch key operation.
Loading indicator with dosage recommendation.
Illuminated rotary knob with integrated On-Off switch.
Programme sequence and remaining time display.
Time delay up to 24 hours.
Anti-crease.
Foam detection system.
Automatic stabilisation.
Multiple signal tones.
Powder detergent drawer with automatic cleaning mode after every wash cycle.
Drum interior lighting.
Child lock.
Combines perfectly with dryer WT260110

Technical Information

Left-hinged Door
Large porthole with 180 ° opening angle.
Height-adjustable feet by a total of 120mm
Height for slide-under installation: 85 cm.
Total connected load 2.3 KW.
Connection cable 1.60 m with plug.
Width 60 cm, height 84.8 cm, depth 59cm, depth with door open (90) 108.50cm, depth with door closed 63.2cm
Water connection with 3/4 " screw joint.
