Lamp output 2 x 1 W. Illuminance 244 lx. Fan technology with highly efficient, brushless DC motor (BLDC).

## Consumption data

Energy efficiency class A at a range of energy efficiency classes from A++ to

Energy consumption 46.6 kWh/year. Ventilation efficiency class A. Ilumination efficiency class A. Grease filter efficiency class D. Sound level min. 42 dB / max. 65 dB normal mode.

### Planning notes

Patented air recirculation module with activated charcoal filter can be installed in the upper cabinet. The activated carbon filter can be changed from the front by simply pulling out the filter drawer.

The door of the upper cabinet must be fully open in order to change the activated charcoal filter.

Can be integrated invisibly in upper cabinet.

Vario cooktops with intensive production of vapours like VR/VP should be placed in the middle beneath the hood (in this case air recirculation is not recommended).

Clearance above gas appliances min. 65 cm (more than total load gas 12 kW min. 70 cm).
